NOSOTROS CUIDAMOS DE TI

Catálogo de productos 2025

FC
FINISH

FC Finish

El fluorocarbono es un acabado repelente al agua y a los fluidos aplicado a las telas para ofrecer protección adicional al usuario, incluidas las prendas certificadas por EN13034. También se puede renovar durante el proceso de lavado.

INHERENT

Inherente

Las telas inherentes ofrecen propiedades resistentes a la llama que no se lavan en comparación con las telas que se tratan con un acabado químico y solo se prueban y certifican para un número limitado de ciclos de lavado.

Hi-Vis (Clase 1, 2 o 3)

HI-VIS
CLASS 1

HI-VIS
CLASS 2

HI-VIS
CLASS 3

EN ISO 20471 es la norma europea para prendas de alta visibilidad. Las prendas se clasifican según la cantidad de material de fondo (generalmente amarillo o naranja) y la cinta reflectante que está presente en la prenda.

PADDED

Acolchado

Las prendas con el icono acolchado ofrecen un forro adicional para el calor del invierno.

100%
COTTON

Las prendas de algodón 100% son frescas y ligeras. Utilizado en clientes más cálidos, incluida la industria marina y también en la industria del transporte de combustibles, donde no se recomienda el uso de fibras artificiales como el poliéster.

WELDING

Soldadura

Este icono significa prendas diseñadas para la industria de la soldadura. Las telas utilizadas suelen ser más pesadas, a veces con acabados especiales. Las sujeciones también están diseñadas para proteger de las salpicaderas de soldadura.

LADIES

Señoras

La gama de prendas disponibles para damas ha crecido progresivamente en los últimos años y donde una prenda está disponible en un ajuste para damas, lo mostramos con el icono de damas.

COMPOSITE
TOECAP

Dedo del pie compuesto

Las punteras y entresuelas tradicionales en el calzado de seguridad son de metal y las punteras y las entresuelas compuestas ofrecen materiales avanzados, incluido el Kevlar. Algunos estilos también están completamente libres de metal.

S1

S1P

S3

S5

SB

SB-P

S1, S1P, S3, S5, SB, SB-P

Estos iconos se refieren a la protección que ofrece el calzado de seguridad. Consulte la explicación de estas normas en la sección Normas EN de este catálogo para obtener más detalles.

WATER
PROOF

APRUEBA DE AGUA

El calzado designado como S3 es resistente al agua, mientras que el término "a prueba de agua" implica que hay una membrana presente en el calzado que hace que el calzado sea impermeable.

HRO

HRO

El calzado que lleva este icono tiene suelas exteriores resistentes al calor (HRO) hasta 300 °C. A menudo se especifica en entornos de trabajo de mayor riesgo, incluidas las industrias de procesamiento petroquímico.

CUT1, CUT2, CUT3

CUT
1

CUT
2

CUT
3

Los guantes protectores de corte se clasifican en varios niveles. En Hazchem ofrecemos guantes Cut 1, 2, 3. Hay otros niveles de corte disponibles en caso de que necesite niveles más altos de protección.

SNR

SNR

La protección del oído se clasifica según la reducción de ruido que ofrece. La clasificación SNR proporciona un nivel de reducción de ruido y debe usarse junto con sus evaluaciones de riesgo de ruido.

PU

PUF

El poliuretano (PU) es un material utilizado en algunas de nuestras botas Wellington y ofrece resistencia adicional contra los productos químicos en comparación con el PVC.

ZIP
SIDED

Con cremallera

Muchos sitios de construcción o industriales han restringido el uso de botas Rigger debido a la falta de soporte para el tobillo. Las botas con cremallera ofrecen fácil de poner/despegar mientras ofrecen soporte para el tobillo.

HAZTEC® FR AS WORKWEAR

“The prime purpose of FR AS Workwear is to ensure that the garments do not catch fire or to limit flame spread, giving time to react in the event of an incident. View the range of products available from Hazchem including the HAZTEC CE certified garments.

”

INHERENT FR AS WORKWEAR BY HAZTEC®

HAZTEC® garments have been designed in conjunction with wearers to ensure we produce garments that provide maximum comfort and protection and at the right price point.

**Model: STAG

ORKA Fit

The fit of an ORKA garment has been designed to provide maximum comfort and is the result of extensive market research and wearer trials. Choose from a wide choice of sizes from stock to provide for the entire workforce.

Low Shrinkage

Shrinkage has typically been a challenge and problem for many FR fabrics. Varmatech fabrics from ORKA have been developed to ensure minimal shrinkage when washed and dried as they would be in real-life situations.

Varmatech Fabrics

Varmatech is the name we give to the blend of fabrics used in ORKA coveralls. Developed and tested to provide maximum protection and wash performance, these fabrics are the brand of choice for the Engineering and Offshore sector.

Triple Stitched Seams

Many of the ORKA garments feature Triple Stitched Seams to ensure maximum lifetime of the garment. Too many garment brands feature cheap construction resulting in the premature failure of seams that render the garment useless.

HV5000

HI-VIS MENS POLO SHIRT

Features: Hi-vis mens polo shirt constructed from comfort polycotton. Split hem design and strategically positioned reflective tape for optimal wearer movement. **Fabric:** Polycotton. **Certification:** EN ISO 20471 Class 2, RIS-3279-TOM (Hi-Vis Orange ONLY). **Sizes:** S – 6XL **Colour:** HV Yellow, HV Orange

SAFETY FOOTWEAR

“The selection of foot protection depends primarily on the hazard. However, comfort, style and durability should also be considered. The choice should be made on the basis of suitability for protection, compatibility with the work and the requirements of the user. Safety footwear should be maintained in good condition, checked regularly and discarded if worn or deteriorated. THE GUIDANCE ON PERSONAL PROTECTIVE EQUIPMENT AT WORK REGULATIONS 1992

HAZCHEM®
Safety You Can Trust

IRIS & IDRA HELMETS

The IRIS Helmet, with integral eye protection has established itself as a leading helmet in the Petrochemical market, and we now introduce the IDRA Helmet which features a full face visor.

OIL INDUSTRY FAVOURITE

HF0510

IRIS II SAFETY HELMET & INTEGRATED RETRACTABLE VISOR

Features: A Fuel industry favourite helmet due to its very robust design, and clever drop down eyeshield - unique visor linkage enables the user to conveniently lower the visor from its position inside the front of the helmet above the peak, to the optimum position to protect the wearer's eyes, tough ABS shell, comfortable textile webbing cradle, adjustable ratchet at the rear for perfect fit, adjustable air vents in the crown, replacement sweatbands and inner harnesses available.

Certification: EN397, Integral polycarbonate adjustable visor to EN166 class 1F. **Colour:** White, Yellow, Red, Blue, Green, Orange

FULL FACE VISOR

HF0500

IDRA SAFETY HELMET WITH INTEGRATED ANTI-MIST FACE VISOR

Features: ABS Safety Helmet with full face visor certified to a range of European Norms including Arc Flash protection, integrated flip-up polycarbonate face shield (330 x 200mm, 2.2mm thick) with antifog coating, comfortable textile webbing cradle, adjustable ratchet at the rear for perfect fit, can be used with prescription spectacles, replacement sweatbands and inner harnesses available. **Certification:** EN 397, EN 50365, EN 166. **Colour:** White

HEAD PROTECTION SAFETY HELMETS

The Centurion range of helmets are designed to cover a wide variety of applications. Manufactured in the UK, these helmets are fully certified to current BS and EU standards, so you can be reassured of their protective abilities.

HF0530

CENTURION SPECTRUM SAFETY HELMET & VISOR

Features: Tough helmet with drop down integral visor, suitable for users wearing prescription glasses, anti-scratch & anti-mist coatings, ABS shell meets the optional side impact deformation rating, close & comfortable fit around the eye & nose reduces the possibility of any fuel/chemical splash bypassing the visor, inc. head band & ratchet **Material:** ABS. **Certification:** E397 (Helmet), EN166 (Visor). **Colour:** Blue, Green, HV-Orange, Light Blue, Orange, Red, White, Yellow

HF0520

CENTURION VISION PLUS HELMET

Features: Suitable for use when wearing prescription glasses, class 1 optical clarity is suitable for continuous use, highest impact protection possible within EN 166, large side pull tabs to enable the wearer to quickly and easily move the visor, moulded visor design provides improved lower cheek coverage, includes anti-scratch and anti-mist coating. **Material:** ABS. **Certification:** EN 397 & EN 166. **Colour:** Blue, Orange, White, Yellow

HF0120

CENTURION REFLEX SAFETY HELMET

Features: Well-balanced, general purpose helmet, rear Ventilation, short peak, accessory compatible (ear muffs, visors, and chin straps), approved to EN397, 6-point Textile cradle fitted with standard sweatband, short peak to suit all applications, extended nape provides increased neck protection. **Material:** HDPE. **Certification:** EN397.

Colour: Black, Blue, Green, Orange, Red, White, Yellow

HF1125

CENTURION 1125 CLASSIC SAFETY HELMET

Features: Classic safety helmet, comfortable and well-balanced, 6-Point Sewn Terylene cradle, brushed Nylon Sweatband, full Peak. **Material:** HDPE **Certification:** EN 397.

Colour: Blue, Green, Orange, Red, White

HEAD PROTECTION SAFETY HELMETS

There is a range of helmet accessories, such as chinstraps, visor carriers and clip-on ear muffs shown on pages 73, 74 and 75.

HF0011

CENTURION NEXUS CORE SAFETY HELMET

Features: Optional 4 point Chinstrap, modern styling, for people working at height, designed for linesman, has a micro peak to provide optimum upward vision, dry-tech sweatband for all-day comfort, meets the requirements for -40°C low-temperature performance & lateral deformation. **Material:** ABS. **Certification:** EN 397. **Colour:** Blue, White, Yellow

HF2002

PELTOR G3000 SAFETY HELMET

Features: A premium helmet with crown ventilation, developed for harsh working conditions. It has a UV indicator in the shell which changes colour to indicator end of useful service life. The comfortable inner harness has ratchet adjustment, and can be rotated through 180 degrees for increased neck protection, if desired. **Certification:** EN 397. **Colour:** White, Yellow

HF0150

CENTURION CONCEPT REDUCED PEAK SAFETY HELMET

Features: Very lightweight, comfort harness, reduced peak, 20% lighter than most other helmets, easily adjustable terylene head harness, popular choice for contractors and surveyors, side impact protection, high absorbent sweatband, fully compatible with centurion attachments, extended nape providing increased neck protection. **Material:** ABS **Certification:** EN 397.

Colour: Green, White

HF1600

EVO®3 SAFETY HELMET

Features: Super strong shell for superior all day protection in the widest range of environments, Integral eyeshield, Revolution® 3D Adjustment™ 6 point harness system, Revolution® Wheel Ratchet or the unique OneTouch™ Slip Ratchet - easily adjustable. **Material:** Tough HDPE shell. **Certification:** EN397, EN 50365 Class 0 10KV, Integral Eyeshield to EN166.1.

Colour: White. Other colours on request

HEAD PROTECTION HELMETS & BUMP CAPS

Our Bump Caps are designed to protect from bumps, knocks and scrapes, as defined by EN 812:2012. Unlike helmets which comply with EN397, they do not provide protection against falling objects.

HF0170

JSP MK7 SAFETY HELMET

Features: Slip ratchet adjustment harness, and the retractable glasses means they are readily available for occasional use, can be used with clip-on ear defenders. **Material:** HDP. **Certification:** EN397 (helmet) and EN166 (visor).

Colour: Blue, White, Yellow

HF0110

BASIC SAFETY HELMET

Features: Choice of 6 colours - easy identification on site, well priced helmet, adjustable plastic head harness, attach lugs for elastic chinstrap, multi-application basic helmet. **Material:** PVC Plastic. **Certification:** EN397. **Colour:** Blue, Green, Orange, Red, White, Yellow

HF0130

BASEBALL STYLE BUMP CAP

Features: Soft foam insert cushions, adjustable fastening, ventilation holes in the side and top for user comfort, removable inner shell, also available in hi-viz versions HF0132, NOT a safety helmet. **Material:** Material/Foam. **Certification:** EN812:2012.

Colour: Black, Bottle Green, Navy, Orange, Red, Royal Blue

HF0132

BASEBALL STYLE HI-VIS BUMP CAP

Features: Soft foam insert cushions, adjustable fastening, ventilation holes in the side and top for user comfort, removable inner shell, also available in standard colours under code HF0130, NOT a safety helmet. **Material:** Material/Foam. **Certification:** EN812:2012.

Colour: HV Orange, HV Yellow

EAR PROTECTION HELMET MOUNTED

A wide choice of helmet mounting ear defenders, to suit a wide range of helmets, and site applications. Some of these are metal free, designed for use in flammable atmospheres. Please

SNR
25

HP6410

SCALA X CLIP-ON HELMET EAR DEFENDER

Features: A lightweight clip-on ear muff with ABS shell, designed to fit all Centurion helmets, except Vulcan, 1125 reduced peak, Nexus and Vision Plus. This replaces the Baltic, and has the same SNR. Certified to EN 352-3 : 2002 SNR 25 dB.

SNR
30

HP6411

ARC FLASH GOAT GRAIN GLOVE

Features: Goat-grain leather is treated with Oilbloc™ for unbeatable oil resistance and Waterstop™ for excellent water, oil, and stain-repellent properties. Goatskin is exceptionally tough and abrasion resistant with a high cut-resistant keratinizing fiber for extra seam protection. **Certification:** Arc flash testing placed these gloves at level 4, with an Arc Thermal Performance Value (ATPV) of 41 cal/cm². **Sizes:** M/8, L/9, XL/10

Price: £16.90

HAND PROTECTION

NEEDLE PROTECTION

GL3993

TURTLESKIN CUT & NEEDLE PROTECTION GLOVES

Features: Designed for tasks that require great grip, dexterity, tactile sensitivity, and cut and puncture resistance. Uniform sport style leather palm and fingers, 100% aramid TurtleSkin® protection bonded to the inside, stretch knit breathable backing and Velcro closure on back of hand. **Material:** Leather. **Certification:** EN388: 2003 3243. **Size:** 6,7,8,9,10,11

GL0450

RHINO GUARD™ PUNCTURE RESISTANT GLOVES

Features: Protection against cut and puncture hazards to the palm, fingers, finger crotches and fingertips to ensure the most exposed regions to hazards have full protection. Leather reinforcement for high action areas. Rubber pull tab for quick donning and doffing. Neoprene expandable wrist for safety and comfort. **Material:** Leather. **Certification:** EN388: 2003 4544, ASTM F2878-10 hypodermic needle test: 5.7 Newtons. **Size:** 8,9,10,11

ABOUT NEEDLE RESISTANT GLOVES

The real-world hazards that pose threats to workers every day can come in unexpected forms – and punctures are no exception. Many times, puncture injuries to the hand and arm actually occur in industries which would not be classified as high-risk for example facilities maintenance. This in itself can make punctures hard to defend against and the use of appropriate PPE more difficult to enforce. Real-world performance is critical consideration when protecting against puncture hazards. Creating PPE that performs well in lab testing but fails to reform in a real-life work environment can be more damaging than a product with greater wearability and a less impressive official performance rating. Knowing the strengths

and weaknesses of your PPE can lead to a more efficient safety program and a healthier, happier workforce. There have been many improvements in needle-resistant fabrics over the past decade and it's important to understand the specific types and levels of protection in which you are investing. It is important to understand that the EN standard which measures protection from puncture hazards, EN388, bears little relevance to the risk of needle injury as the stylus used is similar to the shape of a blunt nail. Please speak to one of our glove specialists if you would like to understand more about the levels of protection afforded and what can be most effectively utilised in your environment.

HAND PROTECTION

NEEDLE PROTECTION

GL7082

SHARPSMASTER HEXARMOR GLOVES, FOR NEEDLE PROTECTION

Features: High level of needlestick resistance and cut resistance on enhanced areas to palm and fingers. Single-glove needle solution with incredible dexterity and comfort. Flat nitrile three-quarter knuckle dip coating for water-resistance. Launderable. **Material:** Nitrile. **Certification:** EN388: 2016 4X33F, ASTM F2878-10 hypodermic needle test: 9.87 Newtons. **Size:** 7,8,9,10

MOLDEX RPE PRODUCTS

The Moldex range of reusable half-masks utilizes the simple Easylock system for filter attachment. A choice of filters for either toxic particulate protection, or a combination filter for gases and vapours.

FACE FIT TESTING
SERVICE AVAILABLE

RP7002

EASYLOCK HALF MASK

Features: A medium size economical respirator, with TPE face seal which is soft and pleasant to wear. Takes any of the Easylock range of replaceable filters, which must be ordered separately. Also available in Small facepiece size (RP7001) and Large (RP7003) to order. **Certification:** EN 140: 1998. **Size:** S (7001), M (7002), L (7003)

RP9000

EASYLOCK FULL FACE MASK

Features: Class 2 Full face mask available in 3 facepiece sizes - Small RP9001, Medium RP9002, and Large RP9003, uses the same Easylock filters as the RP7002 half-mask, supplied with a disposable faceshield protective overlay, filters available separately. **Certification:** EN136: 1998 Class 2 **Size:** S (9001), M (9002), L (9003)

RP9400

EASYLOCK A1B1E1K1 MULTI GAS FILTER

Features: A filter to protect against organic gases with a boiling point >65degC, inorganic, acid gases and ammonia with a concentration up to 1000ppm. Supplied in a pack of 10. Designed to fit Easylock half mask RP7001/2/3 and full face mask RP9001/2/3. **Certified** to EN14387: 2004 + A1: 2008

Pack 10

RP9030

EASYLOCK P3 FILTERS

Features: A highly efficient lightweight filter for protection against toxic particulates. Supplied in a pack of 12. This filter also meets the optional Dolomite clogging test, for longer filter life. Designed to fit Easylock half mask RP7001/2/3, and full face mask RP9001/2/3. **Certified** to EN143: 2000 + A1: 2006

Pack 12

DRAGER RPE PRODUCTS

Available quickly from stock, the Drager range of half and full face masks are a popular choice due to the wearer friendly design. Choice of filters for protection against particulates, and a range of toxic gases and vapours.

RP3300

DRAGER HALF-MASK TWIN FILTER RESPIRATOR

Features: Practical and comfortable in use – the Drager X-ploreR 3300 Half-mask is user friendly and requires very low maintenance. Ergonomic design and excellent fit, with quick and simple bayonet fitting filters. Innovative, pliable moulded facepiece. Fits well with Safety Goggles. Easy filter attachment that cannot be fitted incorrectly. Unobstructed field of vision. **Note: Filters sold separately.**

RP3310

DRAGER A1B1E1K1HGP3D FILTERS (PACK OF 2)

Features: Combination filter A1B1E1K1Hg-P3RD to protect against organic (A), inorganic (B) and acid gases (E) and vapours, including ammonia (K) and mercury (Hg) and fine toxic particles (P3). Suitable for wide variety of applications, including chemical handling. Quick and easy bayonet fitting.

Pack 2

RP3320

DRAGER P3 PARTICULATE FILTERS (PACK OF 2)

Features: The Drager P3 filter protects against fine toxic particles, mists and liquid aerosols. Bayonet fitting to suit the X-Plore RP3300 Half mask, and RP5500 Full face mask. For high concentrations of fine toxic particles including biological hazards. **Certified to EN143:2000 P3 R.**

/Pack 2

RP0001

DRAGER PARAT 4720 ESCAPE HOOD

Features: Designed for Escape Use only: protection against organic, inorganic, acid gases and vapours, and fine toxic particles. ABEK P3 Filter Approval: according to DIN 58647-7 for filtering escape devices. Additionally tested in accordance with EN 14387:2004 for combined dust and gas filter. Requirement for transporting some toxic gasses.

RP5500

DRAGER FULL-FACE TWIN FILTER RESPIRATOR

Features: Full-face Respirator with twin filter bayonet connection. (RP3310) Wide angle vision due to panoramic visor made from shock and heat resistant polycarbonate. Tested and certified to EN136 and NIOSH standards. Extremely comfortable to wear. **Certification:** EN136: 1998. Filters sit low and close to the face providing excellent balance and weight distribution.

BETAFIT DISPOSABLE RESPIRATORS

The Betafit range of disposable masks has been designed to meet the needs of value conscious users, with a choice of P1, P2 and P3 particulate protection. The central exhalation valve helps to reduce heat and moisture build-up within the mask, and improves comfort when worn for long periods of time.

FACE FIT TEST KITS also available

RP1020V

V-FOLD FFP2 VALVED MASKS (BOX OF 20)

Features: The V-Fold FFP2 Valved Mask is a very lightweight, comfortable and economical disposable respirator. Each mask is individually wrapped. Exhalation valve to help reduce build up of heat and moisture inside the mask that otherwise is particularly prevalent during long periods of use. **Certification:** EN149:2001. APF = 10 x WEL protection. **Box Qty:** 20

RP3020V

BETAFIT FFP2 VALVED RESPIRATORS (BOX OF 10)

Features: Ultimate comfortable FFP2 mask - non-toxic and toxic dust protection, metal fumes and oil/water-base particles. Low profile exhalation valve to reduce heat/moisture build-up, very low breathing resistance due to the latest in filter medium technology, soft face seal reduces the risk of irritation, pre-formed nose bridge for consistent positive fit, single piece head strap design makes it easier to wear the mask correctly, outer shell helps maintain its shape even in areas of high humidity. **Certification:** EN 149:2001 + A1:2009. APF = 10 x WEL.

RP3030V

BETAFIT FFP3 VALVED RESPIRATORS (BOX OF 5)

Features: The Betafit FFP3 Valved Respirators provide the ultimate comfortable mask which protects from fine toxic airborne dust such as asbestos, fibreglass, etc. It has a soft face seal to reduce the risk of skin irritation. The mask has a pre-formed nose bridge, which ensures a consistent positive fit to the wearer. Face fit tests have proven this mask to be one of the best fitting disposable masks on the market. **Certification:** EN149:2001 FFP3 NR. APF = 20 x WEL protection. **Box Qty:** 5

RP5010

UNIFIT CUP MASK FFP1 (BOX OF 20)

Features: The Unifit Cup Mask provides protection against non-toxic dust, mists and fumes based on oil or water. Well priced, the FFP1 mask is suitable for a variety of tasks where a basic level of protection is required. **Certification:** EN149:2001 FFP1 NR. 10 x WEL protection. **Box Qty:** 20

RP5020V

UNIFIT CUP MASK FFP2V (BOX OF 10)

Features: The Unifit Cup Mask FFP2V provides excellent particulate protection. The central exhalation valve helps reduce heat build-up within the mask and improves wearer comfort. A bonded foam inner nose seal helps to provide a better fit, without the need for a metal nose clip. Free running single piece head strap makes for easy adjustment to the wearers face. **Certification:** EN 149:2001 + A1:2009. This product has a 5-year shelf life. **Box Qty:** 10

RP5030V

UNIFIT FFP3 VALVED RESPIRATOR (BOX OF 10)

Features: An economical FFP3V disposable mask, with a bonded foam internal face seal all round, for superior comfort and protection. Protects against fine toxic dust particles. Free running yellow elastic headstrap, and pre-formed shape means there is no need for metal components. 5 year shelf life from date of manufacture. **Certification:** EN149: 2001 + A1: 2009 FFP3 NR APF = 20 x WEL. **Box Qty:** 10

MOLDEX DISPOSABLE RESPIRATORS

The Moldex range of disposable masks are all based on a preformed mesh construction, to give greater stability in hot or humid environments. Designed to retain its shape, and maintain a consistent face seal at all times.

RP2405

MOLDEX FFP2 NR D RESPIRATOR (WITH VALVE)

Features: Classic shape durable disposable mask, with loop strap for quick and easy application. Outer mesh construction provides optimum shape retention, and ActiForm nose seal automatically adjusts to fit the wearer. Ventex exhalation valve reduces moisture and heat build-up inside the mask.

Certification: EN149: 2001 + A1: 2009

Box Qty: 20

RP5230

COMPACT FFA2P3 R D MAINTENANCE FREE MASK

Features: A one size mask with integrated filters for protection against organic vapours (A2) and fine toxic particles (P3). A simple to use valve cover provides a pre-use fit check, to ensure that the mask has been fitted correctly before entering a hazardous environment. (This does not replace a Fit Test).

Certification: EN405: 2001 + A1: 2009.

RP24 45

MOLDEX FFP2 NR D ACTIVATED CHARCOAL RESPIRATOR

Features: Durable FFP mask with comfort nose seal, and clip together head strap. Includes a layer of activated charcoal to offer relief from nuisance levels of gases and vapours below the WEL. Also protects from fine particles and ozone. Supplied in a pack of 10.

Certification: EN149: 2001 + A1: 2009

RP5 430

COMPACT FFABEK1P3 R D MAINTENANCE FREE MASK

Features: One size '28 day' mask, with integrated combination filters. Protects against low concentrations of organic (A) and inorganic (B) fumes, acid gases (E), ammonia (K) and fine toxic particles (P3). A popular choice for including in emergency PPE kits, it can be supplied in a plastic storage box, code RP7995.

Certification: EN405: 2001 + A1: 2009.

BETAFIT MONTANA

The Betafit Montana range is lightweight, cost effective and CE certified. Available with a choice of six different lenses for use all the year round. Suited to a range of arduous work environments, each pair of spectacles comes with a detachable neck cord included as standard.

EW2201

MONTANA CLEAR ANTI-SCRATCH SAFETY GLASSES

Features: Single piece wraparound safety spectacle, with hard coated anti-scratch lens for longer life. Our most popular safety glasses, offering exceptional value for money. Complete with neck cord, for use when working at heights. **Certified to EN166 1 F.**

EW2202

MONTANA CLEAR AS/AF SAFETY GLASSES

Features: Clear anti-scratch and anti-fog coated polycarbonate lens, for clear vision at all times. Comes complete with detachable neck cord as standard, for working at height. **Certified to EN166 1 F.**

EW2203

MONTANA SMOKE GREY TINTED SAFETY GLASSES

Features: Smoke grey tinted lens which gives UV400 protection against sun glare. Very popular style comes complete with detachable neck cord, for working at heights. **Certified to EN166 1 F and EN172 5-3.1 (sunglare)**

EW2204

MONTANA AMBER TINTED SAFETY GLASSES

Features: The amber tinted lens provides a high contrast for better visibility in areas of low light (either inside or outside). Comes with a detachable neck cord as standard. **Certified to EN166 1 F.**

EW2205

MONTANA BLUE MIRROR SAFETY GLASSES

Features: Very smart looking, shade 3.1 grey tinted UV400 sunglare safety spectacles with blue mirror reflective finish, supplied complete with detachable neck cord as standard. **Certified to EN166 1 F and EN172 5-3.1 (sunglare filter).**

EW2206

MONTANA INDOOR/OUTDOOR SAFETY GLASSES

Features: Light grey tinted anti-glare lens, for working comfortably indoors and out. Ideal for fork lift truck drivers, and building/landscaping contractors. Comes with detachable neck cord as standard. **Certified to EN166 1 F and EN172 5-1.7 (sunglare filter).**

BETAFIT X2 PREMIUM SAFETY SPECTACLES

Betafit X2 safety eyewear offers high definition optics, in a range which meets and exceeds the requirements of EN166. Chosen for their modern styling and exceptional value, Betafit X2 has become the brand of choice for many of our customers.

EW4111

BETAFIT XCEL ANTI-SCRATCH SAFETY GLASSES

Features: Certified to EN166 1 F T and EN170 2-1.2. A smart close fitting single lens design in clear polycarbonate. So light that you hardly realise you are wearing them. Ideal for visitors use.

EW4001

BETAFIT XCEED ADJUSTABLE OVERSPECTACLES

Features: Designed to be worn over your normal prescription spectacles, this overspectacle has sidearms adjustable for length and angle, and soft grip ends. **Certified to EN166 1 F.**

EW4285

XCESS BLUE MIRROR SAFETY GLASSES

Features: Smoke grey tinted anti-glare lens with blue mirror reflective finish. Provides protection from UV and sunglare. Sturdy nylon frame, has dual technology sidearms for enhanced grip and comfort. **Certified to EN166 1 F T and EN172 5-2.5 (sunglare filter).**

EW4133

XCEL GREY TINTED ANTI-SCRATCH SAFETY GLASSES

Features: Smart smoke grey tinted polycarbonate lens, for protection against UV and sunglare with a shade 2.5 filter. Very lightweight, and provides excellent all round vision. **Certified to EN166 1 F T and EN172 5-2.5 (sunglare).**

EW4282

BETAFIT XCESS CLEAR K&N SAFETY GLASSES

Features: Conforms to EN166 1 F T K N and EN170 2-1.2. Microfibre Pouch Duraclear K&N lens coating, for long lasting clear vision. Sturdy frame with dual technology side arms for enhanced grip and comfort. **Comes complete with microfibre storage pouch.**

EW6420

SILUM METAL FRAME SAFETY GLASSES

Features: Sleek metal frame design, incorporates adjustable non slip nose pads. Clear polycarbonate lens is antistatic, anti-scratch and anti-fog. **Certified to EN166 1 F.**

BETAFIT TOP SELLING SAFETY SPECTACLES

A popular range of safety eyewear, designed for visitors, and anywhere there is a high turnover of staff. Robust and lightweight spectacles, which provide excellent protection, as well as being comfortable to wear.

EW1201

MERANO CLEAR ANTI-SCRATCH SAFETY GLASSES

Features: Lightweight wraparound frame, with one piece clear polycarbonate lens. Shaped lower edge of lens to follow facial contours. Dual technology soft grip side arms, for day long comfort. **Certified to EN166 1 F T and EN170.**

EW2101

JAVA ANTI-SCRATCH SAFETY GLASSES

Features: Wide angle curved lens, with wide single piece sidearms. Close-fitting design provides ample protection for most users. Hard coated anti-scratch finish. **Certified to EN166 1 F.**

EW2602

GARDA ANTI-SCRATCH & ANTI-FOG SAFETY GLASSES

Features: Large wraparound one piece polycarbonate lens offering clear wide angle vision. Hard coated lens for scratch resistance, with anti-fog coating on the inside. Soft and flexible side arms provide excellent grip. **Certified to EN 166 1 F.**

EW2010

VISISPEC CLEAR EYESHIELD

Features: Designed as an overspectacle for visitor use, excellent value for money, ventilated side arms to keep you cool, can be worn over prescription spectacles if necessary. **Certified to EN 166 1 F.**

EW2502

LUCERNE ANTI-FOG SAFETY GLASSES

Features: Unique flexible 'floating' lens design, made of one piece clear polycarbonate. Soft grip nose bridge and sidearms, for extra wearer comfort. Comes complete with detachable neck-cord for working at height. **Certified to EN166 1 F.**

EW2606

GARDA INDOOR/OUTDOOR SAFETY SPECTACLES

Features: Similar to EW2602, but with a lightly tinted grey lens to reduce glare from artificial lighting. Ideal for fork lift drivers and warehouse operatives. **Certified to EN166 1 F & EN172 5-1.7.**

SAFETY GOGGLES FOR DUSTS & LIQUIDS

A wide choice of safety goggles, to suit different applications and budgets. Most have indirect ventilation, and anti-fog coating on the inside. The contract safety goggle is for impact use only (not dusts and liquids).

EW0220

SPLASHTEC CHEMICAL GOGGLE

Features: Indirect vented safety goggles for protection against impact, dust and chemical splash. Anti-fog polycarbonate lens, and a wide adjustable head strap for user comfort. **Certified** to EN166 1 B 3, and approved for ADR use.

EW2807

ULTRAVISION SAFETY GOGGLE

Features: Ultra wide ski-style goggle will fit comfortably over most prescription spectacles. Clear anti-fog polycarbonate lens, and wide elastic easily adjustable head strap. **Certified** to EN166 1 B 3 4 9.

EW2802

BETAFIT EIGER CONTOUR-FIT SAFETY GOGGLE

Features: Popular ski-style goggle, with very soft and flexible face seal to fit most facial contours. Offering excellent all round vision, it has an anti-fog coating on the inside. Wide adjustable elastic head strap. **Certified** to EN166 1 B 3 4.

EW0230

CONTRACT SAFETY GOGGLE

Features: The Contract safety goggle is not designed to protect against fine dust particles, or any kind of liquid splash. This goggle will only provide impact protection, due to the provision of all round direct ventilation holes.

EW4 812

XCLUDER COMPACT SAFETY GOGGLES

Features: The compact size of this goggle makes it easy to wear in conjunction with a mask or helmet. Clear polycarbonate lens is anti-scratch and anti-fog. **Certified** to EN166 1 B.

SAFETY GOGGLES WITH FOAM EDGE

These foam edge safety goggles provide a snug seal to the face, for greater protection against gases and fumes. The lens station is suitable for use with any of our safety cleaning eyewear.

EW4832

XCALIBUR GAS-TIGHT SAFETY GOGGLE

Features: Low profile safety goggle designed to be compatible when worn in conjunction with either a mask or helmet. Full impact protection, soft foam face seal, wide adjustable head strap. Comes complete with a microfibre pouch to protect and store. **Certified to** EN166 1 B T and EN170 2-1.2.

EW0224

TRACKER AS/AF SPECTACLE/GOGGLE

Features: Unique design with removable adjustable strap, as well as sidearms. It is effectively a safety spectacle with a head strap attached. The removable foam inner seal provides additional protection against the ingress of dust/liquids. **Certified to** EN166 1 B T K N.

EW0021

SKYGUARD NT SPOGGLE

Features: A close fitting spectacle with a foam edge surround, and AS/AF coated clear polycarbonate lens. Also available with a grey sunglare lens to EN172 code EW0022, at the same price. **Certified to** EN166 1 F 3 4 K N.

EW6201

BLAST FOAM SURROUND GOGGLE

Features: Clear AS/AF coated lens gives excellent all round vision, and the frame fits over most prescription spectacles. The foam edge surround provides unbeatable comfort. A clip-on visor is available as an optional extra, to provide lower face protection. **Certified to** EN166 2-1.2 1 B T 3 9.

EW4590

B-CLEAN EYEWEAR CLEANING STATION

Features: Stiff cardboard wall mounting dispenser, containing a 250 ml anti-bacterial, anti-static and anti-glare cleaning spray, plus 2 boxes of 200 lens cleaning tissues. Alcohol and silicone free, suitable for all types of lenses.

HEARING PROTECTION

“The Control of Noise at Work Regulations 2005, Regulation 7 explains at what noise level wearing hearing protection becomes mandatory. Regular checks on personal noise exposure are essential to avoid hearing loss.”

EAR PLUGS & DISPENSERS

Ear plugs are a popular alternative to wearing a headband ear defender. Or they can be worn in conjunction with ear muffs in areas of very high noise exposure. However, it is dangerous to over-attenuate when working on machinery, especially if with colleagues is still to be communication effective.

SNR
37

HP6000

NOISEBETA FOAM EAR PLUGS, BOX 200 PRS

Features: Our most popular foam ear plug, offering superior protection with SNR 37 dB. Individually packed in pairs, there are 200 pairs in the dispenser box. **Certified** to BS EN352-2 : 2002 SNR 37 dB.

SNR
37

HP4071

MAX-30 CORDED FOAM EAR PLUGS, BOX OF 100 PAIRS

Features: Very soft bell-shaped foam ear plug, is easy to insert. Attached PVC cord prevents accidental loss in a factory environment. Packed in a cardboard dispenser box of 100 pairs. **Certified** to EN 352-2 : 2002 SNR 37dB.

SNR
30

HP6505

SMARTFIT REUSABLE CORDED EAR PLUGS

Features: A reusable moulded ear plug, which responds to body heat to adapt to the shape of the wearer's ear canal. Complete with flexible cord, and plastic storage case. **Certified** to EN 352-2 : 2002 SNR 30 dB.

SNR
20

HP6005

BANDED EAR PLUGS

Features: A lightweight semi-aural design designed to be worn under the chin. Ideal for intermittent use, or where low attenuation is required. Comes with a pair of replacement ear pods. **Certified** to EN 352-2 : 2002 SNR 20 dB.

SNR
37

HP6007

FOAM EAR PLUG DISPENSER

Features: Free-standing or wall mounted, this dispenser is designed for use with our HP6008 disposable foam ear plugs. Comes complete with a refill pack of 500 pairs (code HP6008).

SNR
37

HP6008

REFILL PACK OF 500 PAIRS FOAM EAR PLUGS

Features: Noisebeta HP6000 disposable foam ear plugs, in a refill pack of 500 pairs. The most economical way to buy ear plugs, as it saves on packaging waste. **Certified** to EN 352-2 : 2002 SNR 37 dB.

EAR PROTECTION HELMET MOUNTED

A wide choice of helmet mounting ear defenders, to suit a wide range of helmets, and site applications. Some of these are metal free, designed for use in flammable atmospheres. Please ask our office, for more details.

ADR DOCUMENTATION

Correct documentation and an understanding of the ADR requirements is a necessity for any company transporting Hazardous Goods. The latest ADR 2019 Regulations are now available from Hazchem along with clipboards and document holders for every

vehicle where required.

AE0010

GLUED DANGEROUS GOODS NOTES (DGN NOTES)

Features: A transport document that gives details about the contents of a consignment to carriers, receiving authorities and forwarders. A DGN can be used for transporting goods using all forms of transport except air freight. Using a DGN means that everyone who has an interest in your consignment has adequate information at each movement stage. Also commonly known as Dangerous goods declaration notes (DGD). 4-part pack of 100.

AE1019

2019 ADR REGULATIONS 2 VOLUME SET

Features: To increase the safety of international carriage of dangerous goods by road, this version has been prepared on the basis of amendments applicable as from 1st Jan. 2019 'Annex A: General provisions and provisions concerning dangerous articles and substances, in particular, packaging and labelling', 'Annex B: Provisions concerning transport equipment and transport operations, in particular, construction, equipment and operation of the vehicle carrying the goods in question'. Relevant Legislation: European Agreement Concerning the International Carriage of Dangerous Goods by Road (ADR).

AE1020

2019 ADR REGULATIONS 2 VOLUME SET, SPIRAL BOUND

Features: To increase the safety of international carriage of dangerous goods by road, this version has been prepared on the basis of amendments applicable as from 1st Jan. 2019 'Annex A: General provisions and provisions concerning dangerous articles and substances, in particular, packaging and labelling', 'Annex B: Provisions concerning transport equipment and transport operations, in particular, construction, equipment and operation of the vehicle carrying the goods in question'. Relevant Legislation: European Agreement Concerning the International Carriage of Dangerous Goods by Road (ADR).

AE0091

ADR CLIPBOARD WITH DOCUMENT POCKET

Features: Use to display Instructions in Writing which should be kept readily available at all times. A handy A4 clipboard for storing and filling out necessary documentation. Durable and waterproof, this orange board is a useful addition to any cab.

AE3401

TREMCARD MULTI DOCUMENT HOLDER

Features: A powder coated steel document storage box for vehicle mounting, designed to display one tremcard while providing storage for spare cards or documents inside. Includes a spring clip on chain to secure lid.

WP0008

HAZCHEM ORANGE WATERPROOF CLIPBOARD

Features: This waterproof clipboard is a must have for drivers and employees working outside in all weather conditions, clear plastic cover which is spring loaded so it stays open - convenient and easy to use in wet weather, cover can be folded flat, two clips on the rear so it can be used as a standard clipboard in dry weather, features two pen holders on the inside of the cover, takes standard A4 portrait paper, metal ring at the top for hanging the clipboard up when not in use which can also be used to lever the paper clip inside the cover, two eyelets for attaching a neck cord.

ADR SIGNAGE UN HAZARD WARNING LABELS

UN Hazard Warning Labels suitable for all classes of hazardous goods. Available as either 250mm x 250mm Vinyl Self Adhesive, Flexible Magnetic, Rigid PVC or Aluminium. Also available as x 100mm Self Adhesive stickers supplied on a roll.

A **HD** **B** **2** **C** **10**

A - Prefix your code with HD **B** - Substrate Code Number - see Table below. **C** - 3 Digit Code for Hazard Warning Labels

SUBSTRATE NO.	DESCRIPTION	SIZE	QTY
1	Rigid 2mm PVC 250x250mm	• For use in triplex panel and diamond holders • Light weight for easily storage and handling • Less likely to scratch powder coated panels than aluminium • Mandatory size for container and vehicle marking • Internationally recognised	1-9
2	Self adhesive 250x250mm	• Permanent self-adhesive backing • Apply directly to containers or vehicle bodies • Mandatory size for container and vehicle marking • Internationally recognised • Often used inside PVC pockets on curtain sliders • Renovate your triplex diamonds	10+ 1-49 50 -99 100-249 250+
6	Aluminium 250x250mm	• For use in triplex panel and diamond holders • Mandatory size for container and vehicle marking • Internationally recognised	1-9
8	250No. 100x100mmS/A labels on Roll	• Self adhesive packaging labels on roll • Meets UN Dangerous Goods Regulation requirements for individual marking of packages containing hazardous substances • 100x100mm, 250 per roll • Strong vehicle magnetic	10+ 1-9
9	Magnetic 250x250mm	• Easy to apply and remove on and off the vehicle-ideal for hire vehicles-saves drilling and screwing • Mandatory size for container and vehicle marking • Internationally recognised	1-9 10+

ADR FOLDING DIAMONDS AND MARKS

VS0550

LIMITED QUANTITY FOLDING ALUMINIUM MARK, 250X250MM

Features: Innovative folding version of the LQ diamond. Hinged enabling it to be simply secured either open or closed with toggle turn buttons. Aluminium construction to be permanently fixed to front and rear of vehicle. For vehicles over 12 ton carrying limit

VS0029

ENVIRONMENTALLY HAZARDOUS FOLDING ALUMINIUM MARK, 250X250MM

Features: Hinged enabling it to be simply secured either open or closed with toggle turn buttons. Aluminium construction to be permanently fixed to front and rear of vehicle. For vehicles over 12 ton carrying limit.

VS0045

CLASS 8 CORROSIVE FOLDING ALUMINIUM DIAMOND, 250X250MM

Features: Hinged enabling it to be simply secured either open or closed with toggle turn buttons. Aluminium construction to be permanently fixed to front and rear of vehicle. For vehicles over 12 ton carrying limit.

VS7212

CLASS 2 NON-FLAMMABLE COMPRESSED GAS FOLDING ALUMINIUM DIAMOND, 250X250MM

Features: Hinged enabling it to be simply secured either open or closed with toggle turn buttons. Aluminium construction to be permanently fixed to front and rear of vehicle. For vehicles over 12 ton carrying limit.

VS7210

CLASS 2 COMPRESSED GAS FOLDING ALUMINIUM DIAMOND, 250X250MM

Features: Hinged enabling it to be simply secured either open or closed with toggle turn buttons. Aluminium construction to be permanently fixed to front and rear of vehicle. For vehicles over 12 ton carrying limit.

VS7220

CLASS 2 TOXIC GAS FOLDING ALUMINIUM DIAMOND, 250X250MM

Features: Hinged enabling it to be simply secured either open or closed with toggle turn buttons. Aluminium construction to be permanently fixed to front and rear of vehicle. For vehicles over 12 ton carrying limit.

VS7230

CLASS 2 FLAMMABLE GAS FOLDING ALUMINIUM DIAMOND, 250X250MM

Features: Hinged enabling it to be simply secured either open or closed with toggle turn buttons. Aluminium construction to be permanently fixed to front and rear of vehicle. For vehicles over 12 ton carrying limit.

VS0042

VERTICALLY HINGED FOLDING 'A' SIGN ALUMINIUM 300X400MM

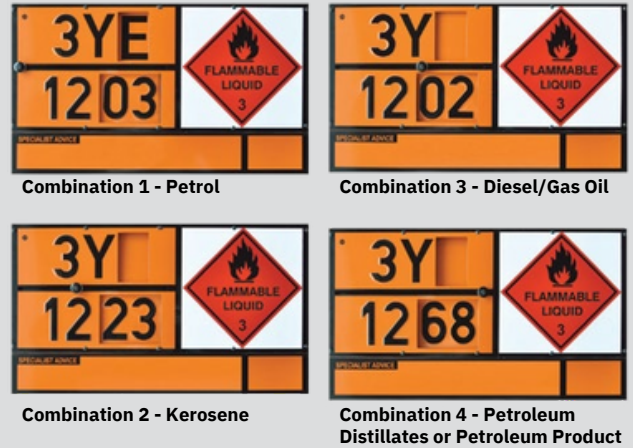

Features: Hinged enabling it to be simply secured either open or closed with toggle turn buttons. Aluminium construction to be permanently fixed to front and rear of vehicle.

ADR DIAMONDS & PLACARDS

VS0120

QUADCODE HAZCHEM SIGN

Features: The Quadcode panel is used for the transport of Class 3 Fuels. Constructed using formed 0.8mm stainless steel and the best reflective materials the panel ensures exceptional reflectivity and durability. 0.8mm stainless steel for great strength & longevity. Reflective materials for maximum reflectivity performance. 4 different displays in 1 panel. Sliding mechanism for quick and easy change.

VS7302

CLASS 3 FLAMMABLE LIQUID FOLDING ALUMINIUM DIAMOND, 250X250MM

Features: Hinged enabling it to be simply secured either open or closed with toggle turn buttons. Aluminium construction to be permanently fixed to front and rear of vehicle. For vehicles over 12 ton carrying limit.

VS7510

CLASS 5 OXIDIZING AGENT FOLDING ALUMINIUM DIAMOND, 250X250MM

Features: Hinged enabling it to be simply secured either open or closed with toggle turn buttons. Aluminium construction to be permanently fixed to front and rear of vehicle. For vehicles over 12 ton carrying limit.

VS7710

CLASS 7 RADIOACTIVE FOLDING ALUMINIUM DIAMOND, 250X250MM

Features: Hinged enabling it to be simply secured either open or closed with toggle turn buttons. Aluminium construction to be permanently fixed to front and rear of vehicle. For vehicles over 12 ton carrying limit.

SS24 433F

FLAMMABLE LIQUID S/A VINYL 200X200MM

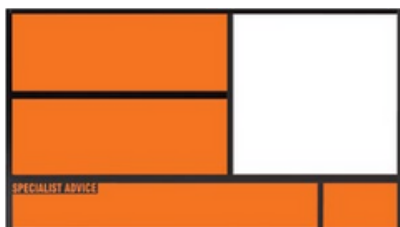

Features: Permanent self adhesive vinyl. Suitable for renovating a Quadcode or Tricode sign.

VS0112

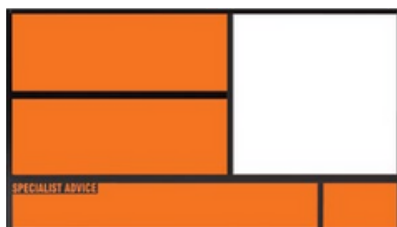

QUADCODE ENVIRONMENTAL DIAMOND EXTENSION

Features: EHS (environmental Hazard Symbol) is now required to be displayed alongside of the vehicle placard. This extension unites the original Tricode or Quadcode with it's EHS counterpart. Stainless steel panel and fixings.

VS0012

ORANGE HAZCHEM PLATE ALUMINIUM 300 X 400MM

Features: Reversible ADR plate for VS0018 holder or replacement panel for VS0010. Corrosion-proof powder coated aluminium. Plate slides in from side of holder showing either reflective orange side with black boarder or plain black reverse. Holder may be purchased separately using code VS0018. 300 x 400mm – ADR Product.

VS0410

FOLDING HAZCHEM PLATE (SMALL) 300X120MM

Features: Hazchem ADR plate for front of an ADR vehicle. Acceptable for the front of an ADR vehicle only where there is insufficient space for a large panel. Easily secured either open or closed by a simple turn button. Aluminium construction to obviate rust. Reflective orange with black border. Small aluminium folding reflective orange with black border Hazchem sign with vertical fold 300 x 120mm. Only suitable for vehicles up to 3500kg if there is insufficient area to affix a larger plate. (Standard 400 x 300mm size reference: VS0040) – ADR product.

ADR SIGNAGE TRIPLEX SYSTEM

TRIPLEX ADR SYSTEM The Triplex sign system is designed to be used on chemical tankers carrying different products per load. It gives great flexibility by easily sliding in digits for the correct UN code and Emergency Action Code. The digits are made of a rigid stainless steel and embossed to meet the ADR regulations 15 minute fire engulfment. The storage box is designed to hold enough digits and diamonds to allow

any UN code for all 3 signs on a tanker.

VS2261

UNIVERSAL EMBOSSED TRIPLEX DIGIT SET

Features: The Universal Embossed Triplex Digit Set is a full set of numerals and letters which enable any UN code to be created. Individual numerals and letters to create the whole range of UN codes. Embossed to meet the fire engulfment requirement. For use in the Triplex ADR holder. Stainless steel. Set includes enough numerals and letters to enable any UN code to be created. 3 sets would be required to fully equip 1 vehicle to be able to display any Hazchem code.

VS2263

HAZCHEM TRIPLEX ADR PANEL HOLDER 700X400MM

Features: Most versatile ADR placard for tankers carrying various different loads regularly. Incorporates a diamond holder for 250 x 250mm rigid diamonds with retaining clip. Slide in individual numerals and letters to configure any UN code (supplied separately). Strong powder coated.

VS2262

HAZCHEM TRIPLEX DIGIT & DIAMOND STORAGE BOX

Features: Robust vehicle storage box designed to fit three complete sets of digits and good number of spare rigid diamonds. Bolt to vehicle chassis and lockable for security. Very convenient and ensures efficiency – avoid delays due to incorrect signage. For fixing Use VK6501. Powder coated steel bracketry for mounting VS2262 to vehicle: 410mm High, 482mm Wide, 395mm Deep.

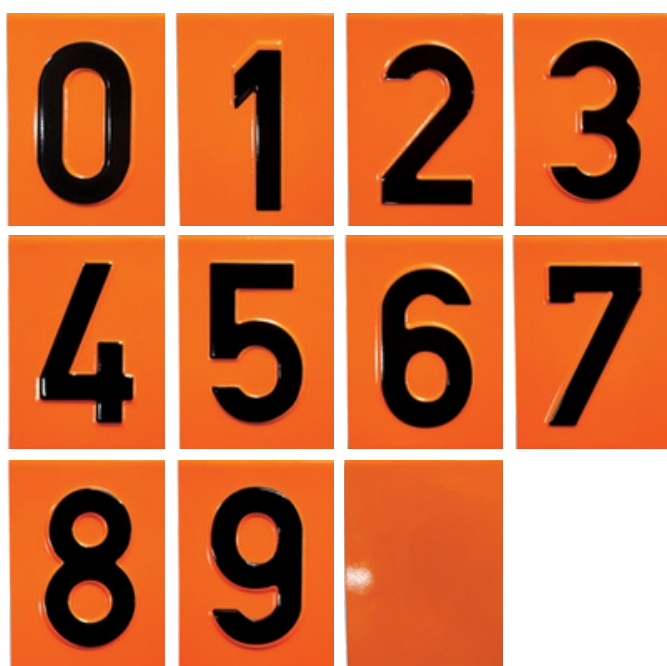

ADR SIGNAGE TRIPLEX SYSTEM

Triplex Digits and Letters available to purchase either as single signs or as part of a kit. If you need a specific kit related to the products you transport, please contact our sales department for a quotation and unique stock reference for your order.

HAZCHEM EMBOSSED TRIPLEX DIGIT NUMERALS

Features: Individual numerals to create the whole range of UN codes. + Embossed to meet the fire engulfment requirement

+ For use in the Triplex ADR holder
+ Made from stainless steel

HAZCHEM EMBOSSED TRIPLEX DIGIT LETTERS

Features: Individual letters to create the whole range of UN codes. + Embossed to meet the fire engulfment requirement

+ For use in the Triplex ADR holder

FE0290

DRY POWDER FIRE EXTINGUISHER

Features: The Dry Powder Fire Extinguisher is Suitable for use on Class A, B & C type fires involving flammable gases such as propane, butane and electrical hazards. Kitemarked to BSEN3: 1996. Squeeze grip operation. Corrosion resistant finish. Available in 4 different sizes. The 2kg and 3kg Extinguishers are also supplied with wall mounting brackets.

ADR EQUIPMENT FIRE EQUIPMENT

ADR requirements stipulate the provision of Fire Extinguishers on vehicles or work areas as applicable. Hazchem offer a range of products to fulfil the majority of requirements.

FE0810

COMMANDO FIRE EXTINGUISHER CABINET (6kg – 9kg)

Features: The Commando fire extinguisher cabinet is perfect for the safe storage of 6kg or 9kg fire extinguishers. This may be mounted to a wall or truck. Hinged front with clip fasteners and weather seal. Strong plastic construction with window to front.

FE5196

FEATHERWING BOX FOR 6 KG FIRE EXTINGUISHER

Features: The Featherwing Box For 6 Kg Fire Extinguisher is a top-opening vehicle extinguisher cabinet which provides total weather protection for vehicle-mounted extinguishers. Includes a chassis fixing kit.

FE7500

TOP OPENING BOX FOR 9KG OR 12 KG FIRE EXTINGUISHER

Features: The Top opening cabinet for 9/12kg Fire Extinguishers offers total weather protection and resistance to chemicals. For truck or trailer mounting (Mounting brackets available separately). Manufactured from light yet robust chemical resistant polyethylene. Internal strap to prevent extinguisher movement Dimensions: 750mm high x 300mm x 300mm.

FE0610

FIXING KIT FOR FE7500

Features: Designed to mount the 9kg FE7500 Fire extinguisher box at a 45 degree on a truck. Robust construction to ensure the box is always held firmly in place.

ADR EQUIPMENT RESPIRATORY PPE

This is only a selection from our range of RPE protective equipment; for more products and information please refer to catalogue pages 99-103.

FACE FIT TESTING
SERVICE AVAILABLE

RP5500

DRAGER FULL-FACE TWIN FILTER RESPIRATOR

Features: Full-face Respirator with twin filter bayonet connection. (RP3310) Wide angle vision due to panoramic visor made from shock and heat resistant polycarbonate. Tested and certified to EN136 and NIOSH standards. Extremely comfortable to wear. Filters sit low and close to the face providing excellent balance and weight distribution.

RP3310

DRAGER A1B1E1K1HGP3D FILTERS (PACK OF 2)

Features: Combination filter A1B1E1K1Hg-P3RD to protect against organic (A), inorganic (B) and acid gases (E) and vapours, including ammonia (K) and mercury (Hg) and fine toxic particles (P3). Suitable for wide variety of applications, including chemical handling. Quick and easy bayonet fitting.

RP3300

DRAGER HALF-MASK TWIN FILTER RESPIRATOR

Features: Practical and comfortable in use – the Drager X-ploreR 3300 Half-mask is user friendly and requires very low maintenance. Ergonomic design and excellent fit, with quick and simple bayonet fitting filters. Innovative, pliable moulded facepiece. Fits well with Safety Goggles. Easy filter attachment that cannot be fitted incorrectly. Unobstructed field of vision. **Note: Filters sold separately.**

RP0001

DRAGER PARAT 4720 ESCAPE HOOD

Features: Designed for Escape Use only: protection against organic, inorganic, acid gases and vapours, and fine toxic particles. ABEK P3 Filter Approval: according to DIN 58647-7 for filtering escape devices. Additionally tested in accordance with EN 14387:2004 for combined dust and gas filter. Requirement for transporting some toxic gasses.

RP7002

EASYLOCK HALF MASK

Features: A medium size economical respirator, with TPE face seal which is soft and pleasant to wear. Takes any of the Easylock range of replaceable filters, which must be ordered separately. Also available in Small facepiece size (RP7001) and Large (RP7003) to order. **Certification:** EN 140: 1998. **Size:** S (7001), M (7002), L (7003)

RP9000

EASYLOCK FULL FACE MASK

Features: Full face mask available in 3 facepiece sizes - Small RP9001, Medium RP9002, and Large RP9003, uses the same Easylock filters as the RP7002 half-mask, supplied with a disposable faceshield protective overlay, filters available separately. **Certification:** EN136: 1998 Class 2 **Size:** S (9001), M (9002), L (9003)

ADR EQUIPMENT WHEEL CHOCKS

The ADR Regulations require vehicles used for carrying Dangerous Goods, to have a suitable wheel chock on board. These are supplied in two sizes, which must be selected according to the

appropriate vehicle loading.

AE0610

SMALL YELLOW PLASTIC WHEEL CHOCK

Features: The Small Wheel Chock in yellow plastic is suited to smaller vehicles and LGV's and is required for every ADR vehicle. Manufactured from a heavy duty, anti-slip, non-sparking, highly visible yellow plastic tested to DIN76051. This chock is designed to prevent vehicles from moving in emergency situations. Suitable for LGVs and generally any vehicle up to 3.5 ton. These vehicle chocks are a mandatory ADR requirement under Annex B Part 8 Section 1.5 of the current ADR Regulations.

AE0110

LARGE YELLOW PLASTIC WHEEL CHOCK

Features: A wheel chock suited to the size of wheel and mass of vehicle is required for every ADR vehicle. Manufactured from a heavy duty, anti-slip, non sparking, highly visible yellow plastic tested to DIN76051 this chock is designed to prevent vehicles from moving in emergency situations. Suitable for larger LGV'S, HGVs and generally any vehicle over 3.5 ton. These vehicle chocks are a mandatory ADR requirement under Annex B Part 8 Section 1.5 of the current ADR Regulations.

AE0620

SMALL BLACK POWDER COATED STEEL WHEEL CHOCK HOLDER

Features: The Hazchem vehicle wheel chock holder has been designed to suit our AE0610 small plastic ADR wheel chock. Constructed from tough black powder-coated spring steel the chock holder has a retaining clip to secure the chock from rattling or coming out, particularly important as this holder is mostly mounted on the vehicle externally. The use of a specific holder ensures that this vital piece of your ADR equipment is always ready to hand when required.

AE0120

LARGE BLACK PLASTIC WHEEL CHOCK HOLDER

Features: The Hazchem black plastic vehicle wheel chock holder has been designed to suit our AE0110 large yellow plastic ADR wheel chock. Constructed from tough black plastic the chock holder has a retaining clip to secure the chock from rattling or coming out, particularly important as this holder is mostly mounted on the vehicle externally. The use of a specific holder ensures that this vital piece of your ADR equipment is always ready to hand when required.

AE0100

SELF STANDING RED FOLDING HAZARD WARNING TRIANGLE

Features: This simple folding design combines a sturdy four footed base with its rubber grip feet and a high visibility interlocking triangle conforming to European Standard ECE R27 and tested to E1 specifications. Supplied in a low profile plastic case. **Dimensions:** Triangle - 440mm each side length, 380mm base to tip. **Box Dimensions:** 430mm x 150mm x 30mm.

VE0460/ VE0470

RED TRAFFIC CONE 500MM/ /750MM

Features: This self weighted one piece cone is compression moulded from a highly durable PVC making it reliable and stable. Fitted with A BS873: Part 6 Des 2 Sleeve this cone can be used for ADR purposed. Also suitable for use in place of triangles in an emergency. Also stocked in height 750mm under code VE0470. **SKU:** VE0460 **Size:** 500mm

SKU: VE0470 **Size:** 750mm

PL0265

UNILITE ATEX-RA2 ZONE 0 INTRINSICALLY SAFE RIGHT ANGLE TORCH

Features: The Unilite ATEX-RA2 Zone 0 intrinsically safe right angle torch is a powerful light that can be operated in areas where hazardous gasses are. With 350 lumens of power, it leads the way in terms of brightness, delivering a strong pin point beam that has a maximum range of 288 meters, which is further assisted by its ultra-smooth reflector. The torch is rugged, with its ultra-strength polycarbonate housing and a rubberized head and grip for external durability. For portability when the unit is not in use, it can be clipped to the operator's person via the convenient rear pocket clip. Suitable for all Gas situations with certification standard II 1 G Ex ia IIC T4 Ga & Mining certification I M1 Ex ia I Ma . UL & ATEX approved makes the torch suitable for North American & EU use.

PL2600

UNILITE ATEX-H1 ZONE 0 INTRINSICALLY SAFE HEADLIGHT

Features: The Unilite ATEX-H1 Zone 0 intrinsically safe headlight delivers a safe and dependable light for operating within hazardous areas. For an ATEX headlight, it operates at the highest levels of brightness, delivering 140 Lumens from its high power CREE LED. This unit has a simple twist to activate setting, and its lighting power is extended thanks to its smooth reflector. In order to protect the end user from hazardous gasses, there is a safety gas release valve and a safety locking battery compartment, keeping the end user safe when used in hazardous environments. The ATEX-H1 adopts Unilite's industrial nature, with its yellow colour, IP67 rating (1m submersible). Suitable for all gas situations with full certification standards for UL & ATEX makes the headlight suitable for both North American & European use.

ADR EQUIPMENT TORCHES

A range of intrinsically safe torches which are ATEX certified for use in flammable atmospheres. The LED versions offer a more intense light beam and also much longer battery life.

PL0150

YELLOW RIGHT ANGLE ATEX SAFETY TORCH

Features: This ATEX Safety Torch is a reliable, simple and cost effective portable light and is available with a straight or right-angle body style and vacuum or xenon bulbs and is CE marked to the ATEX directive and IECEx certified for safe use in Zones 1 and 2 potentially explosive gas, vapour and mist atmosphere, where a T6 or T4 class permits, and Zones 21 and 22 dust atmospheres, with certified maximum surface temperatures of 65°C or 95°C. An excellent solution to the ADR requirement that portable lighting apparatus should be carried at all times. Meets ADR standards. May be used in flammable environments. Very popular in the Petrochemical industry. Takes 2 x D-cell batteries (not included). Relevant Legislation: European Agreement Concerning the International Carriage of Dangerous Goods by Road (ADR).

PL0250

LED YELLOW RIGHT ANGLE ATEX SAFETY TORCH

Features: This LED torch gives an exceptional output of up to four times more light than an incandescent torch bulb, generating a piercing white spot beam combined with a wide-angle flood of fringe light, for excellent visibility in conditions of darkness or reduced visibility. With a typical life of over 25,000 hours, the LED is expected to last the product lifetime, minimising product maintenance and eliminating risk of light source failure. Additionally it gives an increased battery duration of up to 27 hours from a set of two alkaline 'D' cells, more than twice the duration from a conventional safety torch using the same cells. The rubber armoured lens ring and end cap give enhanced grip and shock protection and the shatterproof polycarbonate lens has a scratch and chemical resistant coating. ATEX certified for explosive gas and dust approval. High output LED light source. Duration up to 27 hours. 2 x 1.5V D-cell LR20 Batteries. T4 Temperature class. IP67 Dust and watertight. Low battery indicator. Supplied with a wrist strap. Excellent chemical resistance.

PL0160

YELLOW STRAIGHT ATEX SAFETY TORCH

Features: Manufactured by Peli for use in Zone 1 applications unlike conventional flashlights that have a yellowish beam, the MityLite™ flashlight uses a hi-intensity Xenon lamp that produces a powerful, bright beam. Use this compact flashlight to cut through thick smoke, fog, and dust. It is submersible and comes with a twist-on shroud for increased durability. Intrinsically safe Zone 1 ATEX approved torch. Small and high spec for use in flammable environments. Powered by 2 AAA alkaline batteries (included). Submersible. Beam colour: White. 11 Lumens.

ZONE
0

PL2610

PELI HEADSUP ATEX ZONE 0 SAFETY TORCH

Features: This Headsup Zone 0 (Category 2) ATEX approved headlamp provides hand free light where you need it when you need it. A dual mode activates three LEDs for full brightness or just one to extend the battery life. The torch comes with an adjustable cloth strap that fits comfortably and securely on your head, a rubber strap is also included for use on hard hats and helmets. Takes 3 x AAA batteries (included). Suitable for Zone 0 (category 2) locations.

PL5006/09/20/22

PACKS OF BATTERIES

Features: Various sizes of batteries suitable for use with the Hazchem range of Torches or low current draw products. Cell version D also available in renowned Duracell brand.

FIRST AID PRODUCTS

Simple range of First Aid equipment to fulfil the most common of Workplace requirements. Should you require additional products, please refer to our website or contact our Sales Department.

FA0110

VEHICLE FIRST AID KIT

Features: This travelling First Aid Kit in an orange box is a statutory first aid kit for drivers of vans or trucks travelling in the UK and Europe, where the kit is often a legal requirement. Kit Contents: 2 x Conforming Bandage 5cm x 4.5m; 6 x Saline Wound Cleansing Wipes; 1 x Microporous Tape; 20 x Plasters; 1 x Large First Aid Dressing; 2 x Triangular Bandages; 5 x Low Adherent Dressings; 2 x Fingerstalls (Clear); 1 x Scissors; 1 x Safety Pins Pack of 6; 1 x First Aid Guidance Leaflet.

FA0170

1 PERSON FIRST AID KIT IN SOFT BAG

Features: The 1 Person First Aid Kit in soft carry pouch is a basic necessity for drivers to keep in their vehicles, and is very convenient and easy to store. Kit contents: 2 x Triangular Bandage; 1 HSE Large Dressing 18 x 18cm; 1 x Disposable Gloves (Pair); 6 x Safety Pins; 20 x Assorted Plasters (Sterile); 1 x First Aid Guidance Leaflet; 2 x Saline Wound Cleaning Wipes.

FA0130

10 PERSON STANDARD FIRST AID KIT

Features: The HSE Standard First Aid Kit comes complete with its own durable plastic green box, and is designed for a workplace with up to ten people. The 10 person kit will ensure that you are compliant with the minimum HSE recommendations for low-risk environments. Contents: 1x Guidance Leaflet; 20 x Assorted Plasters; 2 x Sterile Eye Pad Dressing; 4 x Triangular Bandage; 6 x Safety Pins; 6 x Medium HSE Dressing; 2 x Large HSE Dressing; 6 x Wipes; 1 x Pair Disposable Gloves.

FA0120

20 PERSON MEDIUM FIRST AID KIT

Features: The 20 Person Medium First Aid Kit is an HSE required kit for workplaces employing up to 20 people. It comes in a durable green carry case which protects the contents from exposure to dust and moisture. Kit Contents: 10 x Cleansing Wipes; 4 x Eye Pad Dressings; 2 x Gloves (Pair); 1 x Guidance Leaflet; 3 x HSE Large Dressings; 9 x HSE Medium Dressings; 40 x Plasters, Assorted Washproof; 12 x Safety Pins; 6 x Triangular Bandages.

FA0160

1 PERSON STANDARD FIRST AID KIT

Features: The 1 Person Standard First Aid Kit is an HSE required kit for workplaces or vehicles for 1 person, Kit Contents: 2 x Triangular Bandage; 1 HSE Large Dressing 18 x 18cm; 1 x Disposable Gloves (Pair); 6 x Safety Pins; 20 x Assorted Plasters (Sterile); 1 x First Aid Guidance Leaflet; 2 x Saline Wound Cleaning Wipes.

supplied in a sturdy green plastic box.

FA0250

PACK OF 25 STERILE EYEWASH SOLUTION, IN 20ML POD

Features: The sterile saline eyewash solution in 20 ml pods provides immediate first aid treatment for eyes contaminated with foreign bodies or liquid. Ideal for individual application, and meets regulation minimum of 500ml (25 x 20ml = 500ml). HSE and ADR requirement where tap water is not readily available.

FA9033

VAN & TRUCK PREMIUM FIRST AID KIT

Features: Contains the HSE recommended first aid components for travelling employees. Can be installed by the secure fixing bracket Includes 6 x Alcohol Free Wipes, 2 x Conforming bandage, 2 x Eyewash Pods 20ml, 2 x Fingerstalls, 2 x Gloves (pair), 1 x Guidance Leaflet, 1 x Large Dressing, 1 x Microporous Tape, 5 x Non Adherent Dressings, 12 x Safety pins, 1 x Scissors, 2 x Triangular Bandages, 20 x Washproof Plasters.

FIRST AID PRODUCTS

FA0210

STERILE SALINE 500ML EYEWASH SOLUTION

Features: This sterile saline eyewash provides first aid treatment for eyes contaminated with foreign bodies or liquid, and has a long shelf life. This is an HSE and ADR requirement for situations where tap water is not readily available. Up to 4 year shelf life. Box quantity is 10 bottles. Order mounting bracket FA0230 separately, for use with this item.

FA0230

METAL BRACKET FOR 500ML EYEWASH BOTTLE

Features: This Metal Bracket is designed to hold our 500ml sterile saline eyewash bottle, and is ideal for use in the cab of an ADR vehicle. Order eyewash separately under code FA0120.

FA0220

EMERGENCY EYEWASH STATION WITH MIRROR

Features: A purpose designed eyewash station which holds two 500ml sterile saline solution eye wash bottles, and features a shatterproof mirror. Supplied with 2 bottles of eyewash included. Centre panel shows simple user instructions, for ease of reference.

FA0420

COMPACT EMERGENCY EYEWASH STATION

Features: This double eyewash station is compact and versatile in a wall mounting green box with a translucent door for easy visual checking. Providing fast and effective treatment in the workplace or at home, it meets the guidelines given by the Health & Safety Executive. Comes complete with two 500ml bottles of saline eyewash, and two eye pad bandages.

FA0180

5 APPLICATION BIOHAZARD BODY FLUID SPILL KIT

Features: The Biohazard Body Fluid Spill Kit is designed to enable any responder to deal with the problems of body fluids such as blood and vomit. These kits are easy to use and address all the risks that are caused by cross-contamination and infections caused by biological hazards. Meets HSE requirements, and employers legal duty under COSHH to control the risk of cross-infection of employees. Contents:

- 5 x Absorbent Granules 10g
- 5 x Apron, Polythene
- 5 x Biohazard Bag
- 5 x Gloves, Pair
- 5 x Scoop Scraper
- 5 x Spray, Disinfectant 8ml
- 5 x Tissues, Pack 10
- 5 x Wipe, Cleansing
- 10 x Wipes, Dry

FA0118

2 APPLICATION BIOHAZARD BODY FLUID SPILL KIT

Features: The Biohazard Body Fluid Spill Kit is designed to enable any responder to deal with the problems of body fluids such as blood and vomit. Meets HSE guidance, and employers legal duty under COSHH to control the risk of cross-infection of employees. Contents:

- 2 x Absorbent Granules 10g
- 2 x Apron, Polythene
- 2 x Biohazard Bag
- 2 x Gloves, Pair
- 2 x Scoop Scraper
- 2 x Spray, Disinfectant 8ml
- 2 x Tissues, Pack 10
- 2 x Wipe, Cleansing
- 4 x Wipes, Dry

SPILL PADS

Correct spill control is an essential part of any workplace health and safety equipment. It can be quickly deployed to contain or clean up any spills the risk of further reducing contamination.

SC0610

PACK OF 100 (85L) CHEMICAL ABSORBENT SPILL PADS

Features: These chemical absorbent spill pads are highly absorbent and will absorb toxic and aggressive chemicals. These are ideal for everyday use and are perforated for economical use, with very high tensile strength meaning they are unlikely to break under strain. Highly absorbent. Pack of 100. Highly visible.

SC1750

GENERAL ABSORBENT 38CM X 20M SPILL PADS ON ROLL

Features: Individual 38cm x 20m can be used indoors or outdoors but it should be noted that unlike our Oil & Fuel rolls, the pads will absorb rather than repel water thus enabling it to robustly handle water-based spills. The bonded layers indicated by the dimpled effect on the surface of the roll, helps the pads hold together even with vigorous use. The rolls are also perforated allowing them to be easily torn to size for regular maintenance tasks, cutting out potential wastage. The pack can absorb up to 40 Litres of fluid. **Size:** 38cm x 20m **Absorbent Capacity:** Up to 40L

SC0300

DOUBLE THICKNESS 100 LITRE OIL ABSORBENT SPILL PADS

Features: Double thickness pack of 100 spill pads designed to contain and absorb up to 100 litres of Oil based substances. Floats on water but will not absorb any water. Increased tear resistance due to heavyweight design. **Size:** 40 x 50cm **Absorbent Capacity:** Up to 100L

SC0720

PACK OF 100 GENERAL PURPOSE 40 X 50CM ABSORBENT SPILL PADS

Features: The Absorbent Spill Pads General Purpose 40x50cm Pack of 100 are heavyweight with low lint finish and are perforated for convenience. The fine fibre finish aids smear free wiping. **Size:** 40 x 50cm **Absorbent Capacity:** Up to 85L

SC0740

PACK OF 200 OIL ABSORBENT 50 X 40CM 120 LITRE SPILL PADS

Features: The Oil Absorbent Spill Pads Pack of 200 retains strength even when saturated. It is designed to absorb and retain all oils and fuels. It will repel water, coolants, solvents and other non-hydrocarbon products. **Size:** 40 x 50cm **Absorbent Capacity:** Up to 120L

SPILL EQUIPMENT DRAIN COVERS

Emergency drain covers are an essential item to have at hand in the event of a hazardous spill. There are heavy penalties for any pollution to enter the surface water drainage system. causing

SC0430

NEOPRENE 1M X 1M DRAIN COVER

Features: The 1 metre square neoprene drain cover is an extra large size drain cover, that can be re-used time and again. **Size:** 1m x 1m Square

SC0420

650 X 450MM CLAY DRAIN COVER

Features: The Clay Drain cover is a thick, pliable mat that can be pressed down hard underfoot, forming a tight drain seal to resist most liquids. **Size:** 65 x 45cm

SC0432

NEOPRENE DRAIN COVER 500 x 1000 MM

Features: The Neoprene Drain Cover 500 x 1000mm is a quality lightweight drain cover that can be re-used numerous times. Supplied in cardboard tube for easy storage. **Size:** 0.5 x 1m

SPILL EQUIPMENT FOR CLEAN-UP

A selection of useful equipment for clean-up operations after a spill. The telescopic broom, and 2-part shovels are designed for easy storage in a vehicle cab or locker.

AE0220

TELESCOPIC BROOM & HANDLE

Features: Stiff broom head with plastic bristles and telescopic handle. Very useful size to store in vehicles for clearing up emergency dry spills or liquid spills that have been absorbed with a loose absorbent (e.g. SC0530). Handle simply screws to head, telescopic - twist handle to lock. **Size:** Head 300mm, Handle 750mm – 1300mm

SC0350

HAZARDOUS WASTE DISPOSAL BAGS & TIES (PACK OF 10)

Features: The waste disposal bags & ties pack are printed with special waste and warning symbols, and spaces to record the contents and nature of the hazard. **Size:** 50cm x 90cm x 50cm

AE0210

ECONOMY 2-PART SHOVEL

Features: A simple two-part Shovel with a screw together handle design making it easy to dismantle and store in a cab or other confined spaces. D-shape handle for extra strength and grip. An economical option that meets basic ADR requirements. This shovel is not anti-static.

AE0260

PREMIUM 2-PART ANTI-STATIC SHOVEL

Features: Incredibly strong anti static, tough and lightweight with an anti-stick surface making it easy to clean. An ADR requirement for carrying classes 3, 4.1, 4.3, 8 and 9 hazardous substances. The two part screw together design means this product fits easily into a kit bag when disassembled. Manufactured from polypropylene to BS 5378 Strong, anti-static, tough and lightweight, two part screw together design. Relevant Legislation: European Agreement Concerning the International Carriage of Dangerous Goods by Road (ADR).

JP5901

UNIWIPE ULTRAGRIME CLEANING WIPES

Features: These Ultragrime wipes are designed to remove the most stubborn industrial dirt and grime, including oil, paint, grease, ink and adhesives. Extra large, and strong fabric, they are alcohol free, and contain Vitamin E and aloe extract. Dermatologically tested, they are safe to use on all surfaces. Handy dispenser pack of 100 wipes.

CC5822

UNIWIPE MULTIPURPOSE WIPES

Features: These antibacterial wipes are both extra large, and extra strong. Suitable for any surface, these multipurpose wipes are impregnated with an unscented detergent, which is alcohol free and PH neutral. Handy dispenser pack of 100 wipes.

SPILL ABSORBENTS FOR CHEMICALS

Chemical absorbents (yellow) are safe to use on strong chemicals, solvents, acids and alkalis. Ideal for quick and efficient clean-up of potentially harmful substances.

SC0130

20 LITRE CHEMICAL ABSORBENT SPILL KIT

Features: The Chemical Absorbent Spill Kit 20 Litre an ideal quick response solution for laboratories, stores, warehouses and vehicles and perfect for containing small spills. The transparent carry bag will help you to keep track of its contents. **Absorbent Capacity:** Up to 20L

SC0150

50 LITRE CHEMICAL ABSORBENT SPILL KIT

Features: High quality 50 Litre Chemical Absorbent Spill kit. Easy to follow instructions. Designed to the highest standard, this spill kit will absorb any spills of chemicals up to 50 Litres and can be easily disposed of in the waste disposal bags included with the Kit. Supplied in a high-quality carry bag. **Absorbent Capacity:** Up to 50L

SC1310

100 LITRE CHEMICAL ABSORBENT SPILL KIT IN BIN

Features: The Chemical Absorbent Spill Kit in Bin 100 Litre is packed with quality absorbents, this easily handled wheeled container allows for quick response and easy manoeuvring around the plant. The durable polyethene container, with easy-to-open lid, enables quick retrieval of absorbents. The properly identified wheeled spill kit promotes worker awareness and encourages safety at work. Kit contents: 5 (8cm x 3M) Absorbent Socks, 50 (40 x 50cm) Absorbent Pads, 3 Disposal Sacks and Ties, 1 Small Wheeled Bin, Absorbent Capacity: 100 Litres.

SC1320

200 LITRE CHEMICAL ABSORBENT SPILL KIT IN BIN

Features: The Chemical Absorbent Spill Kit in Bin 200 Litre is packed with quality absorbents. This easily handled wheeled container allows for quick response and easy manoeuvring around the plant. The durable polyethene container, with easy-to-open lid, enables quick retrieval of absorbents. **Absorbent Capacity:** Up to 200L.

SC1321

200 LITRE CHEMICAL ABSORBENT SPILL KIT REFILL

Features: The Chemical Absorbent Spill Kit refill is packed with quality absorbents. Kit Contents - 8 x Absorbent socks 8cm x 3m, 120 x Absorbent pads 40cm x 50cm, 4 x Disposal Bags & Ties and 1 x Instruction and contents sheet. **Absorbent Capacity:** Up to 200L

SPILL ABSORBENTS FOR OIL & FUEL

Oil & Fuel absorbents (white) are designed to be oil selective, and suitable for cleaning up oils, fuels and any oil-based solvents. Can be used both indoors and outdoors, without absorbing water.

SC1210

100 LITRE OIL ABSORBENT SPILL KIT IN BIN

Features: The Oil Absorbent Spill Kit in Bin 100 Litre is packed with quality absorbents. This easily handled wheeled container allows for quick response and easy manoeuvring around the plant. The durable polyethene container, with easy-to-open lid, enables quick retrieval of absorbents. **Absorbent Capacity:** Up to 100L

SC1220

200 LITRE OIL ABSORBENT SPILL KIT IN BIN

Features: The Oil Absorbent Spill Kit in Bin 200 Litre is packed with quality absorbents. This easily handled wheeled container allows for quick response and easy manoeuvring around the plant. The durable polyethene container, with easy-to-open lid, enables quick retrieval of absorbents. **Absorbent Capacity:** Up to 200L

SC0070

50 LITRE OIL ABSORBENT SPILL KIT

Features: The 50 Litre Oil Absorbent Spill Kit is designed for use in industrial environments, absorbing oil and fuel. It includes 30 Pads, 3 Socks, 3 Pillows and 5 Waste Bags and Ties. Supplied in a high-quality carry bag. **Absorbent Capacity:** Up to 50L

SC0072

50 LITRE OIL ABSORBENT SPILL KIT REFILL PACK

Features: This oil absorbent refill pack is perfect if you quickly restock your spill kit or use as spares. **Absorbent Capacity:** Up to 50L

SC0090

20 LITRE OIL ABSORBENT SPILL KIT

Features: This oil absorbent spill kit comes in clip top poly bag for quick response to spills of oils, fuels and solvents. Contains absorbent socks to contain spills and protect drains along with absorbent pads to soak up spilt liquids. **Absorbent Capacity:** Up to 20L

SPILL ABSORBENTS FOR LEAKS

Absorbent spill socks are useful for placing around leaking drums or machinery, to absorb leaks on contact and reduce the spread of contamination

SC0631

PACK OF 8 CHEMICAL ABSORBENT 8CM X 3M (80L) SPILL SOCKS

Features: This sock offers excellent absorbency in dealing with aggressive fluids as well as general spills. Bright yellow in colour, the socks are highly visible and can be placed around industrial equipment to prevent drips or leaks from contaminating floor surfaces. **Size:** 8cm x 3M **Absorbent Capacity:** Up to 80L

SC0630

PACK OF 10 CHEMICAL ABSORBENT 8CM X 1.2M (40L) SPILL SOCKS

Features: This sock offers excellent absorbency in dealing with aggressive fluids as well as general spills. Bright yellow in colour, the socks are highly visible in the workplace environment and can be placed around industrial equipment to prevent drips or leaks from contaminating floor surfaces. **Size:** 8cm x 1.2M **Absorbent Capacity:** Up to 40L

SC0380

PACK OF 8 OIL ABSORBENT 8CM X 3M 90 LITRE SPILL SOCKS

Features: These Oil absorbent spill socks are 3 metres long and are extremely effective in absorbing all manner of oil-based substances. Use for bunds and barriers around spills to prevent further contamination. At only 8cm in diameter, these can easily be used in small spaces and around drains or other outlets **Size:** 3m x 8cm **Absorbent Capacity:** Up to 90L

SC0330

PACK OF 10 OIL ABSORBENT 8CM X 1.2M (45L) SPILL SOCKS

Features: These Oil absorbent spill socks are 1.2metres long and are extremely effective in absorbing all manner of oil-based substances. Use for bunds and barriers around spills to prevent further contamination. At only 8cm in diameter, these can easily be used in small spaces and around drains or other outlets . **Size:** 1.2m x 8cm **Absorbent Capacity:** Up to 45L

SPILL ABSORBENTS FOR LEAKS

SC0415

PLUG'N'DIKE PLUGGING AND DYKEING COMPOUND

Features: This Plugging and Dykeing Compound in its granular form is an exceptionally efficient temporary sealant for leaks in tanks, pipes and drums. Requiring no surface preparation, it can be applied directly over the leak and will seal immediately.

SC0970

5LTR PLASTIC BUCKET & LID

Features: The 5Ltr Bucket is a collecting container made of plastic with a secure clip-on lid. It is perfect for the disposal of limited quantities of hazards waste. ADR required for carrying class 3.4.1, 4.3, 8 and 9. **Size:** 5L

SC0530

E-SORB 30 LITRE BAG OF WOOD FIBRE ABSORBENT GRANULES

Features: These E-Sorb granules are a lightweight, highly absorbent and fire-retardant wood fibre designed for medium to large spills. Using a recycled eco product these are more environmentally respectful to traditional alternatives. Suitable for a wide range of industrial uses, leaves clean, dry and safe surfaces. Low density, allowing for easy transportation and usage. **Size:** 30L

SC0440

MULTIZORB 16KG BAG OF ABSORBENT SPILL GRANULES

Features: The Multizorb Absorbent Spill Granules reacts to spills immediately, rapidly absorbing large quantities of liquid. Non-toxic, non-abrasive and relatively dust free. Provides sure footing on slippery surfaces. **Size:** 16KG

EMBROIDERY

Using the latest design and digitisation software we'll create an accurate replication of your corporate logo, brand or safety moto. Modern multi-headed machines enable us to embroider several garments at once, using up to 15 colours on each design. These machines run at speeds of around 1000 stitches per minute and can quickly produce very detailed and durable results. You'll always receive a pre-production proof to ensure you're happy with the quality and logo position – then we'll run your order, pack and deliver in as little as 3 days. Safety compliant, comfortable, durable workwear you'll be proud to put your name to.

HEAT-SEAL TRANSFERS

Heat Transfers are perfect for larger logos or waterproof fabrics or when a lower cost option is required. Using advanced printing methods with heat sensitive adhesive backings, these transfers will last the lifetime of the garment. From receipt of your logo artwork, we create a colour proof for your approval, before printing the transfers which we then hold in stock ready for application to the garments. Heat Transfers are also available in reflective materials to provide additional visibility in the printed logo itself. Some standard reflective transfers are available from stock for immediate application and dispatch such as 'SECURITY', 'BANKSMAN' and 'FIRST AIDER'.

SILVERSWIFT TWO TONE WORKWEAR

The Silverswift Two-Tone range of Workwear allows you to create a colourful corporate image across a selection of garments. All available as standard stock garments that can be personalised with your company logo or brand.
