

## Product Description

The New stainless steel wort plate chiller is a highly-efficient device. This chiller is made of 20 plates of 304 stainless steel that have been brazed together with pure copper in an oxygen-free furnace. 4\*1/2" NPT

Heat Transfer Area/plate: 0.012m<sup>2</sup>(0.14ft<sup>2</sup>)

Thickness of plates: 0.3 mm(0.0118")

Max Flow Rate: 66.6L/min(17.6gpm)

Design Pressure:1.0 Mpa(145 psi)

Test Pressure: 2.0 Mpa(290 psi)

Refrigeration Capacity: 1-5 KW(3400-17000 BTU/hour)
