

# KEG & CARBOY CLEANING TABLETS

Now Introducing...

## CRAFT MEISTER KEG & CARBOY CLEANING TABLETS

### How to Reinvent the Home Brewing Cleaning Process in 6 months

- Step 1** - Introduce Growler Cleaning Tablets at the National Homebrewers Conference
- Step 2** - Repeatedly get asked one question: "Do you make a tablet for cleaning kegs and carboys?"
- Step 3** - Call office from Conference and have the team start working on an option for kegs and carboys
- Step 4** - Send out samples to select homebrewers, shop owners, and industry experts for testing
- Step 5** - "Yes, we do have a tablet for cleaning kegs and carboys"

The first pre-measured cleaning tablet designed exclusively for home brewers.

### Simple to Use

#### CARBOY CLEANING:

Fill Carboy with hot water. Add 2 tablets per 3 gallons water. For heavy soils, use one extra tablet per carboy. Soak for at least 60 minutes. Rinse, then sanitize.

#### KEG CLEANING:

Fill keg with hot water. Add 1 tablet per 3 gallons water. Soak for at least 60 minutes. Rinse thoroughly, then sanitize.
