SUNSHINE, Bring great tools for global users

QUICK, Intelligent manufacturing solutions provider

RELIFE, Practicality is real

Become a healthy, cheerful, and continuously innovative happiness Enterprise

PRODUCT ADVANTAGES

The product scale reaches more than 5,000 products in 10+ categories, covering the mobile phone repair process. The various tooling needs required.

New Products Of The Month

SUNSHINE&RELIFE Series

RELIFE E1 Carbon Fiber Electric Screwdriver Set

- Carbon fiber exterior design;
- S2 steel magnetic screwdriver bit;
- Forward and reverse steering design;
- 5-speed adjustment, forward and reverse mode;
- LED shadowless lighting;
- Type-C universal charging port;
- Strong power and long-lasting battery life;
- Silicone screwdriver bit storage, models are clearly marked, neatly stored, quick and easy to use.

RELIFE E3 Turbo Air Cooler

- Carbon fiber exterior design;
- 10W brushless turbine motor;
- Intelligent 4-speed speed control;
- Powerful magnetic nozzle, choose as you like;
- Type-C universal charging interface;
- Strong power and long-lasting battery life up to 210min;
- Lightweight wireless design, no hand fatigue;
- Automatic sleep.

SUNSHINE LS1 Screen Separator

- 7.8-inch working area;
- High-power and efficient vacuum pump;
- Visual temperature control panel;
- Quick screen removal and glue removal;
- Selection of high-quality metal materials;
- Thickened integrated aluminum plate.

RL-726 Precision Torque Screwdriver

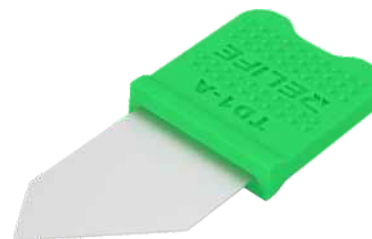

- Idle torque, torque does not damage the machine;
- 3D S2 steel screwdriver bit, high-precision fit;
- Multiple models clearly marked, product model, color, large identification mark to distinguish;
- Nut with strong magnetic design;
- Suitable for disassembly and repair of various telecommunications and electronic equipment;
- Anti-slip handle design.

Intelligent Precision

Rapid heating in 2 seconds/Smart still, induction sleep

- The latest research and development of smart gyroscope technology, standstill or sleep, can customize the sleep time, safe and energy-saving;
- Two interface options for digital curve, intuitive and simple temperature/power display, to achieve better welding quality;
- Integrated plug-in heating core, quick replacement of the soldering iron tip, rapid heating without warm flushing, heat transfer efficiency up to 30%, smooth lead-free soldering;
- Can be widely used in various chip-level repairs, PCB manufacturing, mobile phone motherboard flying lead desoldering, etc.;
- Language switch, Chinese/English can be switched freely;
- 30° folding tripod design, can be adjusted according to maintenance needs;
- Tip selection: TSS08C-I/TSS08C-SK/TSS08C-J.

GVM H3 Smart Soldering Station

- Support T115/T210/T245 soldering iron handle;
- 3-channel temperature storage, quick switching;
- Intelligent temperature control 2S tin;
- Intelligent induction sleep;
- LCD visual temperature adjustment;
- Automatic identification of welding tools, strong compatibility;
- Freely adjust the Angle of the support;
- Integrated cleaning/storage/one-hand extractor.

MOBILE PHONE REPAIR ESSENTIAL POWER SUPPLY

New power maintenance experience, unique appearance patent design, combines beauty and function, heat dissipation characteristics.

NEW

P1 Pro Max Intelligent Regulated Power Supply

- Double pulse powerful spot welding;
- Short circuit detection and repair;
- PD/QC simultaneous fast charging;
- One-click startup and convenient maintenance;
- DC unified output waveform display;
- Online remote software upgrade;
- Power meter function;
- Highly integrated intelligent comprehensive voltage stabilization;
- Compact and mini;
- Meet the needs of professional and technical personnel.

SUNSHINE P3 DC Regulated Power Supply

- A/V dual digital display dual pointers;
- 5V/8.4V/15V switching;
- 5V/2A USB charging;
- 9V independent charging.

HOT

P-3005A NC Programmable DC Power Supply

- Five sets of storage can be called;
- Intelligent control of ventilation and heat dissipation;
- 1mV / 1mA resolution;
- 30V/5A Digital display power supply;
- Fully programmable.

P-3005DA High-performance Linear Power Supply

- DC regulated power supply;
- Intelligent control of ventilation and heat dissipation;
- New design;
- Bold high quality terminal with copper core;
- With single three-point simultaneous output function.

S245 Smart Portable Soldering Iron

- 2S rapid heating;
- Inductive sleep mode, put the soldering iron stand to sleep;
- Universal C245 Series Soldering Iron Tips;
- Can be widely used in various chip-level maintenance, PCB manufacturing, mobile phone motherboard flying lead desoldering, etc.;
- Comes with a cleaning copper wire ball and a heating core cleaning hole, and can also place a replacement soldering iron tip to prevent loss and quickly replace it.

DEVELOPMENT TREND

The integration of mobile phone motherboards is getting higher and higher. The repair of motherboard IC needs to work with a magnifying glass. Now many maintenance peers are equipped with microscopes.

SZM45T-STL2 Trinocular HD Stereo Microscope

- Trinocular simultaneous display on the same screen ;
- Works with industrial cameras ;
- 0.7-4.5 continuous zoom focusing, 7-45 times optical zoom ;
- High quality soft rubber eye mask;
- External 10.1-inch display, high-definition wide-angle display on the same screen, improve work comfort;
- 360° freely rotating base;

M-24 10.1 Inch LCD Display

L1 5 In 1 Smart LCD Laminating Split Machine

- Support straight screen mobile phone/curved screen mobile phone/tablet lamination, and support 12.9-inch large tablet lamination; support screen pressure retention; support UV curing, etc.;
- A large number of models fully fit;
- Designed for edge screens;
- 8-inch high-definition touch screen;
- New development and upgrade of software and hardware;
- Support operations in up to 5 languages, including: Chinese, English, Spanish, Arabic, Khmer, support customer language batch customization;
- For the first time, the brand launched a 2-year after-sales service (except for consumables) free of charge for the whole machine to solve your after-sales concerns.

PRECISION MOLD, CLOSE FIT

Continuous update - model of curved screen mold

L2 Smart LCD Laminating And Defoaming All-in-one Machine

- One-button bonding, automatic defoaming, can support curved screen, straight screen mobile phones, etc. with a size of less than 7 inches;
- Large-screen touch, one-button intelligent operation;
- No need for external connection, high vacuum degree;
- The whole machine is as light as 19.1kg, light and easy to carry, no need to connect other equipment, no need to debug, one-click fit and defoaming;
- Strong power and strong sealing;
- No need for external vacuum pump and air compressor, 100 large cylinders can be attached to curved surfaces and straight screens, with high vacuum degree;
- The cabin is made of thickened safety explosion-proof steel, with good sealing, stable pressure and no leakage, fast defoaming, safe and comfortable.

L3 Airbag LCD Laminating Machine

S-959B LCD Vacuum Laminating Machine

- 16 inch fit working area, Can squeeze straight screen mobile phone/tablet, the largest support fit size is 12.9 inches;
- No need for one-piece soft rubber pad;
- No need to turn the cable;
- Comes with soft mat;
- No debugging, you can start operation;
- One-button start without noise;
- Precise pressure regulating/high precision air pressure valve, the equipment factory has professional masters to fine-tune the pressure to ensure that the machine has an excellent pressure screen effect. It can also be adjusted according to the actual situation. The effect of different pressures is obvious, which is suitable for more occasions.

NEW

S-978B Oversized Defoaming Machine

- Electroplating does not rust, and the diameter can accommodate curved screens/flat screens/flat screens under 12.9 inches (including 12.9 inches);
- Fully automatic intelligent control;
- Efficient defoaming without foaming back;
- Safety switch door;
- Smaller size and lighter weight.

HIGH-DEFINITION THERMAL IMAGING

TB-03S Infrared Rapid Diagnosis Instrument

- Support multi-platform client connections such as IP mobile phones, Android mobile phones, and laptops;
- The infrared lens is detachable and can be installed on the microscope through a special bracket;
- The bracket can be flexibly stretched to adjust the height, which is convenient for storage, comprehensively improves the user experience, and meets the needs of different scenarios;
- High-definition thermal imaging, precise positioning.

TB-03S Mini Infrared Rapid Diagnosis Instrument

- 256*192 HD thermal imaging;
- The infrared lens is detachable, supporting various innovative DIYs and creating more interesting and creative applications;
- The bracket can be adjusted 360° at will;
- Small and exquisite appearance, can be held in one hand, innovative design, easy to carry and go;
- Adapted to USB interface;
- Clamp type innovative design;
- Weighing only 153g, it is light and compact and can be used flexibly in small spaces..

TB-03 Infrared Imaging Rapid Diagnosis Instrument

- Support the detection of all models/brands of mobile phone motherboards and other products with motherboards, etc.;
- Double light effect rapid diagnosis;
- Accurately locate abnormal components;
- Professional motherboard testing equipment, bid farewell to the traditional complex motherboard testing methods, testing faster and more accurate.

LC-AD15 PCB Rapid Diagnosis Instrument

- Support the detection of all models/brands of mobile phone motherboards and other products with motherboards, etc.;
- 400W HD visible light;
- 256*192 HD thermal imaging, Flexibility to zoom in on the details of the motherboard, and easily find tiny components;
- One-click quick check for leakage;
- Flexible folding and portable;
- Type-C interface can be connected to a computer.

LASER MOBILE PHONE FRAME AND GLASS REMOVE MACHINE

SS-890B Laser Machine

- Intelligent position and range, fast and accurate position;
- Modern numerical control technology, strict control of every detail;
- Support more than 210 mobile phone models;
- High-speed scanning galvanometer is used;
- Marking speed is fast, more than 4 times that of ordinary YAG and DP semiconductor marking machines, high efficiency, saving time and labor costs.

SS-890B Plus Multifunctional Fiber Laser Machine

- It is suitable for laser removal of the back cover of mobile phones, and supports text or pattern marking on various metal objects;
- Mobile phone wireless control;
- Built-in computer system;
- Integrated high-efficiency purification smoking instrument;
- Equipped with 10. inch high-definition display screen, wireless keyboard and mouse;
- The system supports 14 language switching, and can freely switch between Arabic/Simplified Chinese/Traditional Chinese/English/French/German/Italian/Japanese/Korean/ Portuguese/Russian/ Spanish/Turkish/Vietnamese.

SUNSHINE P-30A Short Circuit Killer

- Power-on test short-circuit
- Fault point automatic burnout
- Position fault fast and accurate
- Real-time display current voltage

S-917C Mini High-purity Dust-free Machine With Dual Light

SS-917C Dust Free Working Table

- Dust light mode is optional, green light shows dust, white light works;
- Three layers of filtration·Health protection;
- Effectively intercept PM2.5 particles, higher purification rate;
- Large working area, 34.5*23cm workbench, large size, more comfortable to work with film;
- Adjustable strong and weak wind;
- Built-in removable and washable filter.

Customizable

SUNSHINE Impulse Flex Press Machine

- Support edge screen, IP X series and IP 11 series, etc.;
- Mobile phone green row maintenance professional equipment;
- Titanium alloy hot pressing cutter head (standard 0.8mm);
- Automatic tray entry and exit, Large aluminum panel that supports screens up to 12.9 inches;
- Microcomputer touch operation;
- Automatic tape.

SS-6508T Portable Cleaning Machine

- SUS304 stainless steel material;
- Smart touch panel;
- High-power industrial shock head;
- Suitable for cleaning work in electronics, electrical appliances, hardware, machinery, communications, etc.

SS-968 Ultrasonic Cleaning Machine

S-918J LCD Dismantle Machine

SUNSHINE Multifunctional Diamond Pen

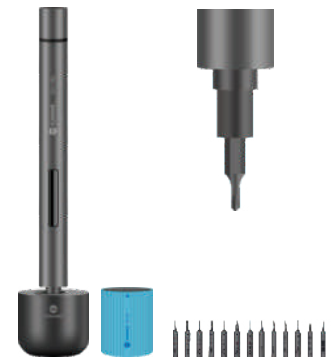

SS-101A High Precision IC Artifact

SS-101F Chip Repair Advanced Blade Set

SS-719 Special Screwdriver For Mobile Phone Repair

- Ergonomics anti-slip design of the handle;
- Light and easy to use;
- Y0.6 for screw inside IP7/7P/8/8P/X;
- Star shape 0.8screwdriver apply to the screws at the botom of IP;
- +1.5 screwdriver is used for the cross shape screw of IP, MI, SAM, HW, etc;
- Available for small "+"shape screws of IP.

SD-18E Lithium Electric Screwdriver

- Lithium battery era, technical innovation;
- Lithium battery power ,safety and continuation, eliminates the tedious of wired connection and relieves the limitation of operation;
- High performance motor, lift up to 200 speed, faster and more efficient;
- High purity metal aluminum, die-casting molding, light rich handle;
- Shadowless lamp, light your life;
- Using S2 imported alloy steel material, the hardness is up to 60 degrees that is durable;
- Magnetic screwdriver head storage box, one-click lifting, with magnetic, delicate

UV CURING

Optical technology UV curing

NEW

S-918B SE Intelligent UV Vacuum And Filming Machine

- A machine that specializes in film application;
- Say goodbye to edge curling worries;
- Suitable for laminating multiple types of films such as hydrogel film, UV light-curable film, UV glass film, etc. under 7 inches;
- Smart touch digital display panel;
- Matrix lamp beads, Enhanced film effect;
- Multiple modes for rapid curing and lamination;
- Adapted to Type-C interface;
- Positioning the camera notch;
- Weighing only 638g, it is small in size, lighter in weight, and has the same light effect.

S-918B Plus UV Curing Vacuum And Filming Machine

- Vacuum negative pressure fit for different models;
- Optical technology UV curing;
- Rework and UV glue curing for mobile phone screens;
- Digital display timing dual mode optional;
- 42 large lamp beads run at the same time, large irradiation area, strong light efficiency, and faster curing.

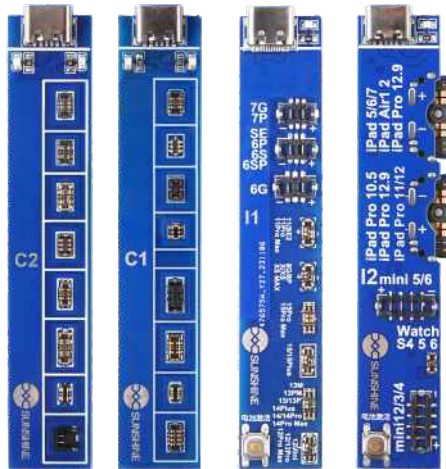

S-918B UV Curing Lamp Box

SS-003 Curing Light

SS-818 UV Curing Lamp

UPGRADED VERSION

Customized For Mobile Phone Repair

SS-909 Smart Charging Activation Board

- Applicable to most of the current mobile phone models and IPAD (exclusive first), newly added IP15/15Plus/15Pro/15Pro Max;
- Fast discharge, improved efficiency;
- Smart charging, automatic power off;
- USB upgrade and expansion design;
- Clear discharge and charge switch functions.

SS-903A IP Battery Activation Board

- Bold pure copper wire;
- Selected original battery contact holder;
- Equipped with identified battery contact pad holder, ready to use;
- For IP 5G/5C/5S/6G/6 Plus/7G/7 Plus/8G/8 Plus/X/XS/XS Max/XR/11/11 Pro/11 Pro Max/12/12 Pro/12 Pro Max/12 Mini/13/13 Pro/13 Pro Max/13 Mini/14/14 Plus/14 Pro/14 Pro Max/15/15Plus/15Pro/15Pro Max.

SS-904A Android Battery Activation Board

SS-302 USB Voltage And Current Detector

SS-302A USB Intelligent Digital Display Detector(QC4.0)

- Supports multiple smart devices;
- Real-time monitoring, real and effective data;
- Intelligent fast charge ;
- Power and memory function.

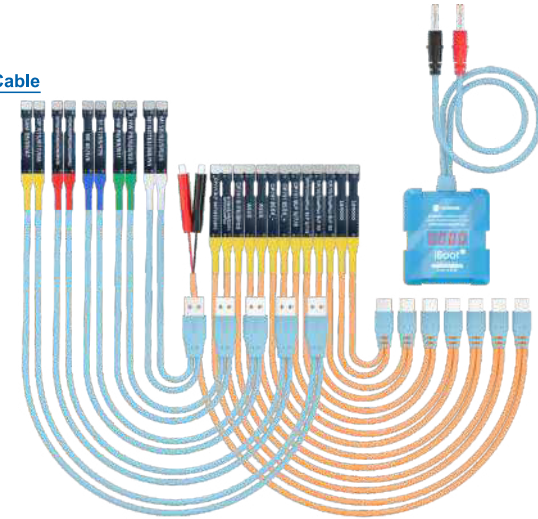

ANDROID SERIES SIMPLE BOOT LINE

Immediately Buckled /For Immediate Use
/Automatic Anti-burn

iBoot C Android Mobile Phone Series Digital Power Cable

- 8V high voltage output intelligent digital display;
- Double-cell high-voltage, snap-on;
- sustainable expansion design;
- Original data, boot in one second;
- Mechanical ammeter interface design, can be used without connecting the power supply, more accurate judgment of the magnitude of the current;
- Applicable to SAM/HW/OP/VI/MZ and other new models of major brands of Android phones;
- High flexibility and connection with the main board are not easy to fall off, the number of times of folding is more than 90,000, and it is not easy to break. The ultra-soft and ultra-thin anti-folding FPC soft row is durable and easy to operate;
- Constant voltage and constant current intelligent output, overcurrent and overvoltage automatic multi-level protection, independent identification.

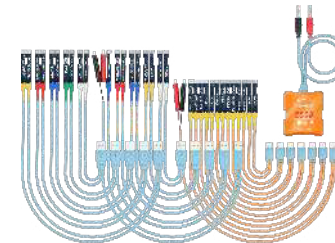

SS-915 Smart Phone Built-in Battery Activation Fast Charging

- Adjust the power supply to 9V to support 9V battery charging without manual settings;
- Intelligent identification of positive and negative poles;
- Support all IP6-15PM series, suitable for the latest Android best-selling models such as SAM/HW/OP/VI/MI/MZ (including Transsion series) ;
- High power overload protection;
- Current and voltage dual LED display.

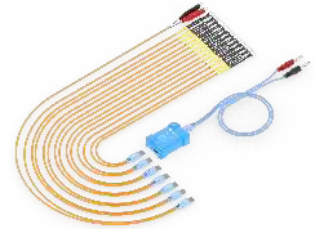

SS-904B Transsion Battery Charging Activation Board

Repair And Replace Battery Holder

HIGH PRECISION DIGITAL MULTIMETER

DT-17N Automatic Digital Multimeter

- Built-in fuse, with overload protection;
- Intelligent detection, precise measurement;
- Suitable for a variety of work scenarios;
- Automatic sleep/On off Warning/Auto range.

DT-19N Mini Multimeter Profession For Mobile Repair

- The first multimeter customized for mobile phone repair;
- Professional customization, born for mobile phone repair.

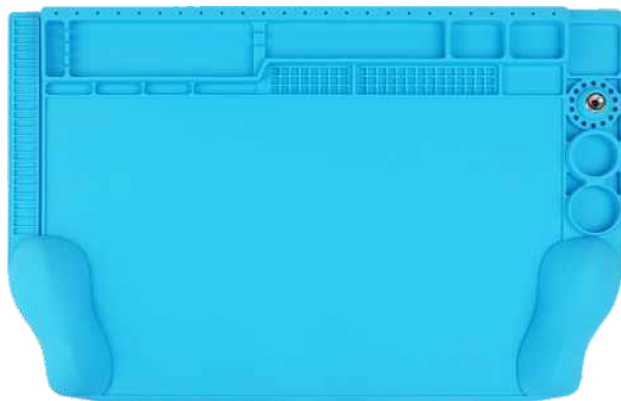

DT-890N Digital Multimeter

DT-9205E Digital Multimeter

3D VERSION OF THE REPAIR PAD THE INDUSTRY'S FIRST

Multi-Function Repair Station Insulation Pad

SS-004H 3D Silicone Repair Work Mat

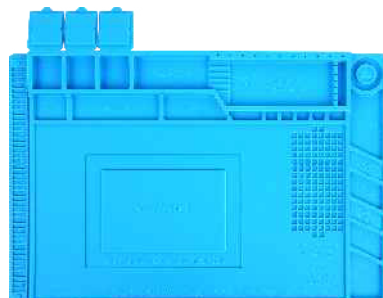

Long-term maintenance work will make your wrist feel more difficult, so we designed this 3D repair work mat, so that you can feel goodbye from the wrist and pain.

Soft silicone 3D wristband,
care for the wrist.

S-160 Multifunctional Maintenance Work Pad

- Thickened high temperature resistance;
- Strong magnetic unit;
- High temperature resistance 500°C ;
- Anti-static, water-proof and oil-proof.

ALUMINUM ALLOY MICROSCOPE REPAIR PAD

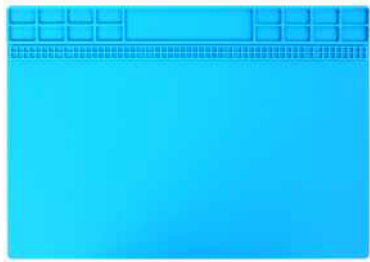

Multiple microscope column fixing methods

SS-004N Aluminum Alloy Repair Pad

- Professional version of the comprehensive repair pad with microscope deck, can be used in the market for three-hole, four-hole column fixed various types of microscope size installation;
- Increased number of slots, round, oval, rectangular, various slots, tools can accommodate;
- Silicone insulation repair pad, Anti-static, anti-corrosion, high temperature resistance 500 ° C.

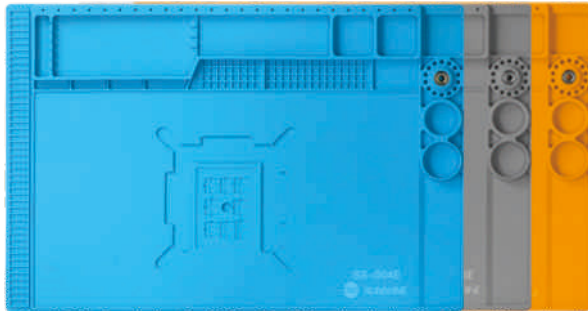

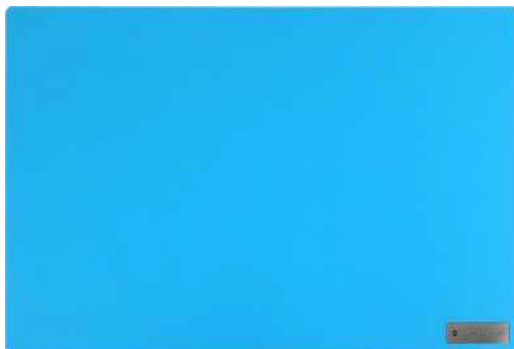

SS-004A Silicone Repair Mat Repair Insulation Pad

SS-004B Repair Work Mat With Magnetic

SS-004E Silicone Repair Work Mat

SS-004F Extra Large Work Mat (500*350mm)

NEW

SS-004S Anti-slip Silicone Pad For Separator

- Adopting octopus sucker design to absorb, the structure suction is increased by 40%;
- Universal 7-inch splitter, good for mobile phone screen repair;
- Good elasticity and no deformation;
- Symmetrical hole design, not easy to leak;
- Textured on both sides, not easy to slide when used.

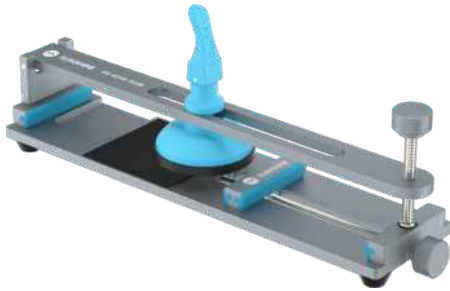

MULTI-FUNCTIONAL FIXTURE SERIES

SS-601G Plus Multifunctional Heating-free Screen Remover

- No heating, quick screen removal;
- Applicable to the separation of LCD screens such as mobile phones/ tablets and the removal of rear cover glass;
- Split structure design, suitable for mobile phones with back cover glass, etc., easily and quickly remove the back cover;
- Camera protection design;
- Safety protection Non-destructive disassembly;
- Strong suction cup, Uniform force, safe, stable and reliable, easier to absorb, not easy to fall off;
- 3-in-1 design structure, the screen can be disassembled directly without heating, safe and fast, when the glass back cover is down, it is used to disassemble the screen, when the glass back cover is up, it is used to remove the back cover glass.

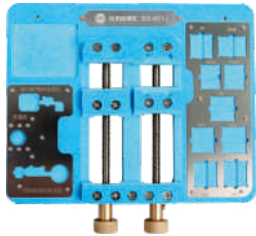

SS-601A PCB Holder For Mobile Repair

SS-601B PCB Holder For Mobile Repair

SS-601C PCB Holder For Mobile Repair

SS-601J PCB Holder For Fingerprint Repair

SS-601G Heating-free Mobile Phone Screen Removal Tool

SS-304Q 6-Port USB Smart Fast Charge

- Strong compatibility;
- QC3.0 fast charging technology;
- Broadband voltage universal ;
- Intelligent shunting, more intimate, can charge multiple devices at the same time.

SS-309WD Smart Charger With Wireless Charging

- Strong compatibility;
- Large coil induction wireless charging;
- USB current automatic recognition ;
- Broadband voltage universal;
- 8 USB port.

SS-304D 6-Port USB Smart Fast Charge

- Strong compatibility;
- Creative independent digital display;
- Broadband voltage universal ;
- Intelligent shunting, more intimate, can charge multiple devices at the same time.

T12A

MOTHERBOARD REPAIR HEATING SYSTEM

X3/CPU/Android/N11/M6/N12/Camera/N13/N14/N15
10 specifications are available to meet multiple needs

SS-T12A Heating Series

Preheat 185°C-Test Temperature Accuracy (+5°C) 185°C can just melt the temperature of the motherboard solder paste, and never harm other components.

SS-T12B Intelligent Maintenance Heating Platform

- Supports bonding and separation of Android and IP7G-15PM series motherboards, separation of screen frames, etc., and will continue to be updated in the future;
- modular design, A variety of combined modules, common modules on the base, good scalability, easy to expand new modules;
- The heating area is large, the compatibility is good, and it supports the desoldering operation of various motherboard components, which is more convenient and quick;
- Intelligent temperature control, customized temperature adjustment according to different melting points, with fast heating, long life and uniform temperature;
- No heating gun, no soldering iron;
- 360° rotating buckle + guide rail design, suitable for precise clamping of motherboards of different shapes, improving maintenance efficiency;

NEW

SS-6605 Powerful Smoke Purifier

- Super strong suction power and high frequency instant suction;
- Suitable for manual soldering, laser marking smoke filtration, etc.;
- 3 layers of filtration, effectively filtering smoke and protecting health;
- Aerodynamics long rhombus hood;
- Compact size, small footprint, large operating space, high work efficiency, low-noise brushless fan, high air volume, large suction power;
- Brushless motor, silent and noise reduction;
- 360° adjustable universal bamboo tube.

SS-6604 Mini Powerful Smoke Purifier

- Super mini and big suction;
- Suitable for manual soldering, laser marking smoke filtration, etc.;
- 3 layers of filtration, effectively filtering smoke and protecting health;
- Aerodynamics long rhombus hood;
- Compact size, small footprint, large operating space, high work efficiency, low-noise brushless fan, high air volume, large suction power;
- Brushless motor, silent and noise reduction;
- 360° adjustable universal bamboo tube.

HOT

G-19/G-20/G-21 Universal Super Glue/Milky/Transparent/Black

- High adhesion/Not hard/No whitish;
- Needle mouth design/Precise positioning;
- Hose packaging, Good squeeze, strong sealing;
- 50ML/15ML optional;
- Suitable for electronic products/mobile phones/crystal jewelry/leather/clocks, etc.

B-7000 Multifunctional Clear Glue

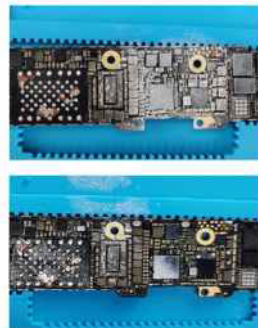

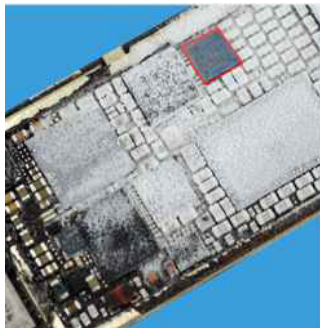

S-7800 Multi-functional Black Glue

RMA-228 CPU Solder Paste

SS-580 Aerosol Coolant System Freeze Spray

- Fast cooling to -50°C;
- Environmental protection, no residue;
- Precise nozzle, gun type;
- Rapid Evaporat, Non-conductive;
- Equipped with precise nozzle and elongated tube, gun type press is more convenient and precise.

Under quick freezing

Thawed

SS-530 Environmental Cleaning Agent

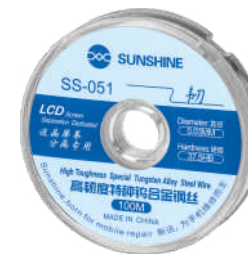

SS-530 Environmental Protection Cleaner Set

SS-520+ Polarized Glue Remover

SS-007E Fine Silver Wire Flying Line

- For precision flexible circuits;
- Small as hair, good conductivity;
- No need for tinning, improve work efficiency;
- Special for replenishment, containing tin-silver alloy composition;
- Constant point, no false welding, special for flying line.

SS-051 LCD Separation Wire

SS-007D For IP Chip Conductor Wire

SS-022D Double Copper Head Dual-purpose Brush

- Suitable for mobile phone maintenance IC pad cleaning, motherboard deglue and tin removal, polishing, etc.;
- The brush head can be replaced and expanded;
- Bristle brush + fine wire brush, according to different needs, use different material brushes, good cleaning effect;
- Bristle brush, high elasticity, no hair shedding, anti-static, cleans the motherboard, chips, etc., non-destructive operation;
- Thin steel wire brush, high-quality steel wire, high hardness without deformation, powerful for removing glue, tin, polishing, etc.;
- All-metal handle, alloy thread, ergonomic design, non-slip and easy to operate, more comfortable grip.

SS-022B Double-head Dual-purpose Brush

SS-022 Anti-static Brush

SS-046 3 in 1 Brush Set

Protective Film

SS-061 Positioning Mould

NEW

- Suitable for IP6G-15/15Plus/15Pro/15Pro Max ;
- All-in-one positioning;
- No flip cable;
- High-precision positioning.

SUNSHINE Positioning Mold

SS-037M Universal Pressure Holding Mold

- Applicable to many mobile phones;
- High-quality explosion-proof cotton;
- Does not hurt the screen;
- Non-slip foot pad, convenient operation, saving time and effort.

T-007 IP 11 Series Motherboard Simple Middle Test Stand

- Imported High-quality probes, Longer life;
- Bottom plate through-air design;
- For IP 11 /11 Pro/11 Pro Max;
- Tight fit, no deformation, no harm to the motherboard.

T-008 IP X Series Motherboard Simple Middle Test Stand

- Imported pure copper gold-plated probe;
- Bottom plate through-air design;
- For IP X/XS/XS MAX;
- Needle plate precision design and accurate registration.

NEW

SUNSHINE High Capacity Battery Series

- Double-layer lithium ion cycle;
- Upgrade high capacity;
- High conversion rate and stable output;
- Multiple protection system.

Screen Tester Series

Model support comprehensive

The product quality has passed the violent test, the hardware is automatically detected, and the board burned is prevented, which is stable and reliable

TB-01 Ultra Intelligent Screen Tester

- Support setting battery capacity and cycle times, suitable for IP6~14Plus/HW/SAM/OP/VI/MI, measuring display, touch, power consumption, IP7~14Plus with original screen/no original screen original color restoration, etc.;
- Fast screen measurement with complete functions;
- 2.8-inch clamshell design with touch screen, more convenient operation, new smart operating system, IOS-like interactive design, multi-functional quick switching;
- Set battery capacity/cycle times;
- Easy to operate, switch between Chinese and English.

TB-01 SE Smart Screen Tester

TB-06 Battery Cycle Tester

- Support IP8G/8P/X/XS/XS Max/XR/11/11Pro/11Pro Max/12/12Pro/12Pro Max/12Mini/13/13Pro/13Pro Max/13Mini/14/14Pro/14Plus/14Pro Max battery reading Simultaneous circulation of data and batteries, restoration of battery health and efficiency, etc.;
- Two-way simultaneous circulation doubles the efficiency;
- Charge/discharge adjustable;
- Battery cable reading and writing;
- Installation does not restart, Anti-install automatic protection.

TB-05 Battery Cable Repair Instrument

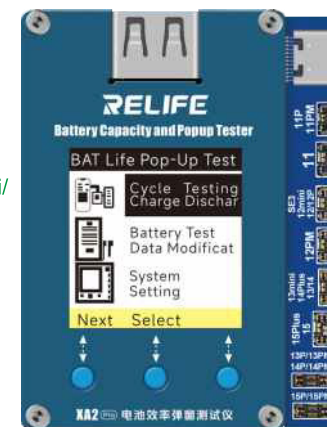

External battery flex cable

Support setting battery capacity/cycle times

XA2 Pro Battery Capacity And Popup Tester

- Support IP/11/11Pro/11Pro Max/12/12Pro/12Pro Max/12Mini/13/13Pro/13Pro Max/13Mini/14/14Pro/14Plus/14Pro Max/15/15Plus/15Pro/15Pro Max;
- Flex-free BatteryEfficiency Settings;
- Automatically repair system pop-ups;
- Battery health settings;
- No need to buy additional battery cables.

Multimeter Series

Breaking the design scheme of conventional multimeters, pen-style design, intelligent and more convenient

DT-02 Intelligent Pen Multimeter

- Multi-function measurement, can measure a variety of electronic components, to meet your needs for multi-function, suitable for on-site services maintenance, personal DIY enthusiasts, home maintenance, etc.;
- Suitable for mobile phone maintenance testing, resistance measurement, diode, on-off test, etc.;
- Neutral and Live wire judgment;
- Non-contact induction detection;
- Backlit large screen Flashlight lighting;
- Small and convenient, easy to carry;
- The instrument uses AAA 1.5V battery, which is easy to replace, easy to buy, and has a longer battery life;
- The multimeter will automatically shut down in 5 minutes if there is no operation.

Air Cooler Series

Easy to operate, mini size and powerful wind, carry it with you, may be needed in any scene

RELIFE E3 Turbo Air Cooler

- Carbon fiber exterior design;
- 10W brushless turbine motor;
- Intelligent 4-speed speed control;
- Powerful magnetic nozzle, choose as you like;
- Type-C universal charging interface;
- Strong power and long-lasting battery life up to 210min;
- Lightweight wireless design, no hand fatigue;
- Automatic sleep.

NEW

Battery Spot Welding Series

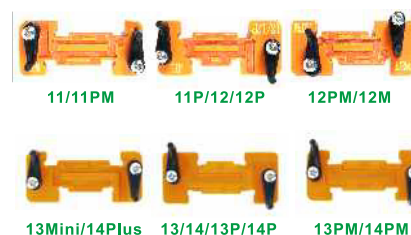

Suitable for precision welding of lithium battery nickel sheet, battery plate replacement, stainless steel sheet, stainless steel sheet, etc.

HOT

RL-936W Small Battery Spot Welding Machine

- Weldable to nickel mobile phone battery, support welding IP/HW/MI/MZ/OP/VI and other mainstream mobile phone batteries;
- Embedded encryption operating system;
- One-handed welding;
- The fault point is automatically burned out;
- 8 gears output power adjustable;
- It is suitable for precision welding of lithium battery nickel sheet, battery small plate replacement, stainless steel sheet, stainless iron sheet, etc. It can be used for short-circuit fault detection of various mobile phones and computers.

RL-936WA/1 Battery Welding Fixing Fixture

RL-936WD Magnetic Suction Spot Welding Fixture

RL-936WE Digital Display Battery Spot Welding Machine

- Suitable for precision welding of lithium battery nickel sheet, battery small plate replacement, stainless steel sheet, stainless iron sheet, etc.;
- One-handed continuous welding, battery fixed spot welding integrated design;
- Strong spot welding;
- 6 gear welding mode;
- Precise positioning, more precise welding.

RL-936WB Mini Battery Spot Welder

- External red copper spot welding seat, the battery can be placed on the machine and can be operated continuously for multiple times with one hand, reducing power consumption;
- Four-grid power display; short press the button to switch gears, long press to turn on, and automatically shut down after 10 minutes of no operation;
- Small and portable, conforming to the size of the human hand, more ergonomic design, bringing you a more comfortable experience.

RL-936WG High Power Battery Spot Welding Machine

- Preset three groups of low, medium and high convenient pre-selected spot welding parameters;
- Multi-stage pulse spot welding is stronger;
- Red copper replaceable soldering tip;
- 650A high magnification output;
- Large capacity battery output, long battery life.

RL-936WF Multifunctional Battery Spot Welding Fixture

RL-086 Pro Intelligent Air Tightness Detector

RL-086 Mobile Phone Air Tightness Detector

RL-M3-STL2 Binocular HD Microscope

RL-M5T-B11 Trinocular HD Microscope

- Clear imaging, easy operation, suitable for mobile phone repair/jewelry identification/production line inspection, etc.;
- 0.7-5.0X continuous zoom focusing, precise gear zoom handwheel, optical magnification 7-50 times, clearer imaging, precise feedback, more accurate zoom;
- Support diopter and diopter adjustment, adapt to people with different eye distances, and can observe clearly even after taking off the glasses. Ergonomically designed, the M-26 eyecup is more suitable for human eyes, no light leakage when observing, and the texture is soft, bringing a comfortable experience;
- B11 large-size aluminum alloy base, guaranteed 100mm working distance, endowing more operation possibilities;
- Large diameter, wide field of view, high-definition wide-angle eyepiece, long-term use is not easy to fatigue.

RL-M5T Pro-B11 Trinocular HD Microscope

- Clear imaging, easy operation, suitable for mobile phone repair/jewelry identification/production line inspection, etc.;
- 0.7-5.0X continuous zoom focusing, precise gear zoom handwheel, optical magnification 7-50 times, clearer imaging, precise feedback, more accurate zoom;

UV Curing Series

It is mainly used to quickly cool down the temperature of the motherboard after the motherboard is repaired, and it is suitable for using green oil in the motherboard repair

RL-014C Smart Curing Light

- 2 in 1 cooling + UV curing;
- Built-in powerful cooling fan, 13000 rpm;
- High efficiency and fast curing;
- The time timing can be adjusted in three gears;
- Wireless operation, long battery life;
- High power lamp bead design;
- Mesh format cools quickly to reduce heat, durable.

RL-014D Smart Curing Light

RL-014A UV Curing Lamp

RL-014 UV Curing Lamp

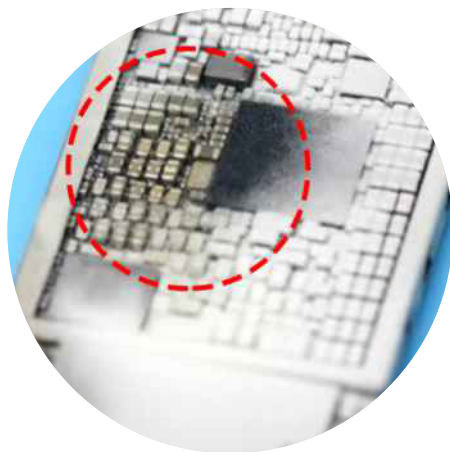

Short-circuit Detection Auxiliary Series

Suitable for detecting short circuit fault points of various mobile phones and computer motherboard lines, etc.

RL-069A /B Rosin Short Circuit Detector

- No soldering iron, better effect;
- Accurate atomization, the atomization precise contact area is enlarged, no need to use the soldering iron repeatedly, reducing the waste of rosin;
- Fast atomization;
- Ceramic atomizing core, fast heating, low energy consumption;
- Thickened glass cover, clear atomization, the glass cover wall is not easy to break, the smoke is thicker, and the service life is longer;
- Copper nickel plated, fast heating up, durable;
- Ergonomic design, pen-shaped design, comfortable hand feeling, compact and portable.

RL-069 Rosin Short Circuit Detector

RL-056D Intelligent Cutting And Degumming Machine

- Motor forward and reverse direction;
- 16h of continuous use on a charge;
- 6-speed adjustable speed;
- Say goodbye to hand rubbing glue, no liquid medicine, easy to remove curved screen glue/cold light screen/backlit screen/original hard glue/OCA glue, etc.
- High precision cutting;
- Multifunctional protective cover;
- No need for screws to fix, fast installation and replacement, convenient and fast;
- LED green dust light;
- Automatic shut-down;
- Multifunctional degumming/cutting/polishing.

RL-066/A/B Remove Glass/Back Cover Diamond Pen

- Imported special tungsten steel;
- Adjustable strength;
- Surface sandblasting treatment, environmental protection and wear resistance;
- Applicable for disassembly and repair of lens module of IP8-12 Pro Max series and other mobile phone glass back cover.

HEAT-FREE SCREEN SEPARATION

RL-601S Plus Multifunctional Dismantling Screen Rotating Fixture

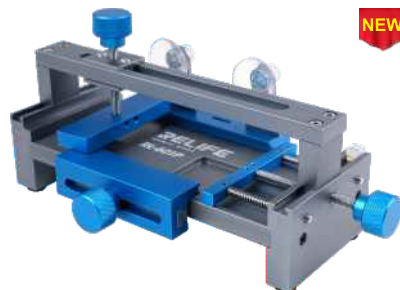

- Efficient removal of rear cover glass;
- No heating, quick screen removal;
- Firmly clamped, non-destructive disassembly;
- 360° arbitrary rotation of the plane;
- Strong suction cup, free adjustment;
- The groove is smooth to prevent damage to the camera when the screen is removed.

RL-601S Pro Pressure Retaining Caulking Repair Fixture RL-601S General Rotating Fixture RL-083 External Suction Cup

RL-601S Mini Multi-function Dismantling Screen And Pressure Holding Fixture

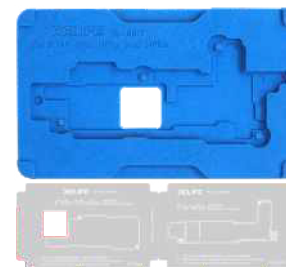

RL-601P Multifunctional Frame Corrector

RL-601T Middle Layer Tin Planting Platform Set

- For IP X-15PM;
- Built-in three high-temperature strong magnets, strong magnetic adsorption;
- Precise positioning;
- Universal base, unlimited compatibility, continuous model update;
- 18 in 1 middle layer tin planting.

RL-601T Ip14 Middle Layer Tin Planting Platform

RL-601MA CPU Tin Fixture

RL-601MA IP CPU Tin Planting Platform Set

- Suitable for A8/A9/A10/A11/A12/A13/A14/A15/A16;
- Magnetic power automatic precise positioning;
- Strong magnetic adsorption;
- Universal chip slot structure;
- Precision hole pitch design, The tin bead is even and full.

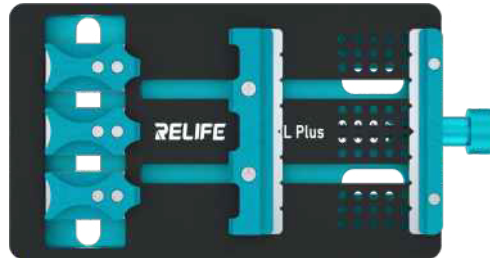

Motherboard Repair Fixture

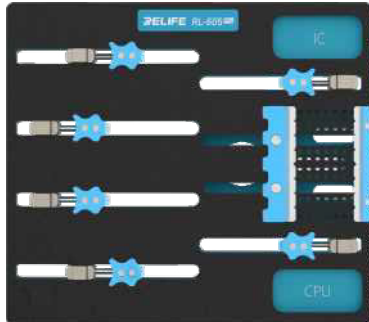

Support different maintenance needs

RL-601L Plus Mobile Phone Special-shaped Motherboard Repair Fixture

- Special for special-shaped motherboard repair;
- Suitable for motherboard welding/chip glue removal/board moving repair/camera repair and clamping;
- V groove structural design;
- Suitable for multi-functional clamping such as motherboard welding/chip glue removal/board moving repair etc.;
- Chip heat dissipation design;
- Universal mobile phone repair clamp, using slide rail fixation design to meet the needs of motherboards of different shapes.

NEW

RL-605 Pro Laptop Motherboard Repair Tool

- Special for laptop motherboard repair;
- Solve the problem of repairing and fixing laptop motherboards, supporting motherboards with a maximum width of 12CM;
- Support different maintenance needs;
- Suitable for all kinds of traditional/special-shaped motherboards, multiple misaligned buckles make the clamping and fixing more stable and firm, and not easy to deform;
- Universal chip slot structure;
- Stepped clamping design to meet the needs of different use environments.

RL-601L Card Slot Fixture

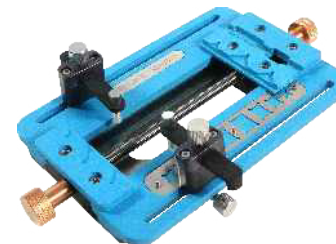

RL-601L Mini Rotary Fixture

NEW

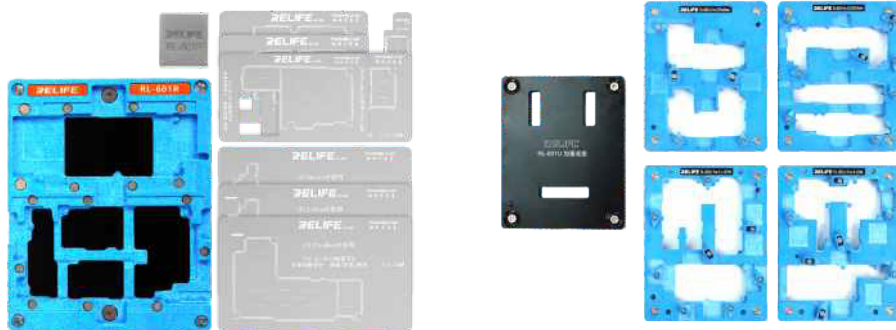

RL-601I Motherboard Chip Repair Mini Rotary Fixture

- Small and practical, it can be placed on the microscope disc base, desktop and other scenes for maintenance and use;
- 360° omnidirectional rotation;
- Removable and independent use, the weighted base is more stable;
- Universal chip slot structure;
- Suitable for motherboard repair, chip removal, etc.

RL-601F Multi-purpose Mobile Phone Motherboard Repair Fixture

- Effectively prevent the motherboard from being deformed by heat;
- Multifunctional additional rail fixing clip, which can be freely adjusted vertically/horizontally, and can also be installed/removed;
- Suitable for all kinds of mobile phone motherboard repair fixed dot matrix face / CPU / hard disk and other IC type glue removal;
- Two-way precision movable guide rail, accurate positioning, the shaft is faster and smoother.

**RL-601R** 10 In 1 Middle Board Tinning Platform Set**RL-601U** Mobile Phone Repair Motherboard Fixture**T-011** Ip14 Middle layer motherboard tester

- Suitable for IP14/14 Plus/14 Pro/14 Pro Max motherboard detection/test failure/start/display/touch/camera/flash/photosensitive distance/earpiece/speaker/WIFI/face recognition, etc.;
- Pure copper gold-plated probe;
- Needle plate precision design;
- Improve efficiency and reduce maintenance risk;
- Spring buckle, simple and durable.

**T-009** Ip12 Motherboard Mid-level Tester**T-010** Ip13 Motherboard Mid-level Tester

SCREWDRIVER SERIES

Suitable for disassembly and maintenance of various telecommunications and electronic equipment

RELIFE E1 Carbon Fiber Electric Screwdriver Set

- Carbon fiber exterior design;
- S2 steel magnetic screwdriver bit;
- Forward and reverse steering design;
- 5-speed adjustment, forward and reverse mode;
- LED shadowless lighting;
- Type-C universal charging port;
- Strong power and long-lasting battery life;
- Silicone screwdriver bit storage, models are clearly marked, neatly stored, quick and easy to use.

SD-22E Precision Electric Screwdriver

- 250R.P.M speed, strong power;
- Magnetic installation Quick change;
- Small size and ultra-light body;
- One button forward and reverse, let go and stop;
- Rechargeable lithium battery Type-C interface;
- A total of 6 types of 10 precision bits, covering most of the common models of electronic product disassembly, maintenance and disassembly are readily available;
- High-quality S2 alloy steel bits, hardness up to 60HRC, precise and durable, doublesurface sandblasting/sodium phosphate chemical treatment, rust-proof and high-precision bite screws, not easy to damage precision screws.

RL-727 3D Extreme Edition Mobile Phone Repair Screwdriver

- 3D precision S2 steel cutter head;
- Large recognition icon;
- NdFeB strong magnetic adsorption;
- Precision silent bearing;
- Hexagon screwdriver cap;
- Suitable for disassembly and maintenance of various telecommunications and electronic equipment.

RL-726 Precision Torque Screwdriver

- Idle torque, torque does not damage the machine;
- 3D S2 steel screwdriver bit, high-precision fit;
- Multiple models clearly marked, product model, color, large identification mark to distinguish;
- Nut with strong magnetic design;
- Suitable for disassembly and repair of various telecommunications and electronic equipment;
- Anti-slip handle design.

RL-726A Precision Screwdriver Set

NEW

RL-725 Adjustable Torque Screwdriver Set

- Adjustable limited torque;
- The tighter the nut is, the greater the torque value;
- S2 steel bits are replaceable, With 5 commonly used bits;
- Concave-convex anti-slip design;
- Noise reduction bearings.

RL-728 Special Screwdriver For Mobile Phone Repair

NEW

RL-724 High Precision Torque Screwdriver

- Torque does not hurt the machine;
- Corresponding to a standard torque, when the screw is screwed to a certain value, the handle will rotate idly, preventing the screw from slipping due to excessive force, or scratching the screw cap if the screw is not tightened tightly;
- The fit is as high as 95%, not afraid of slipping and not damaging the surface of the screw, durable;
- A powerful magnet is installed inside, which solves the defect that the old-fashioned screwdriver cannot absorb screws due to long-term use;
- Precision bit, comfortable grip handle, long life, suitable for repairing various electronic equipment.

RL-728A Mobile Phone Repair Screwdriver Set

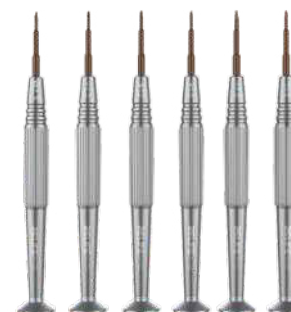

RL-728B Laptop Repair Screwdriver Set

RL-724A Mobile Phone Repair Screwdriver Set

RL-723 Interchangeable Head Torque Screwdriver

RL-722 Precision Screwdriver

RL-721 Precision Screwdriver

RT-11E/15E Precision Titanium Alloy Ceramic Tweezers

- Special tweezers for jump wire;
- High precision fit;
- Anti-static ceramic;
- Insulation without magnetic induction;
- Ergonomic design, non-slip pattern design, comfortable grip.

RL-ESD-11/15 Antistatic Tweezers

TS-11/15 Precision Tweezers

SK-11/15 Stainless Steel Tweezers With Holes

SH-11/15 Precision Tweezers

SA-11/15 Precision Tweezers

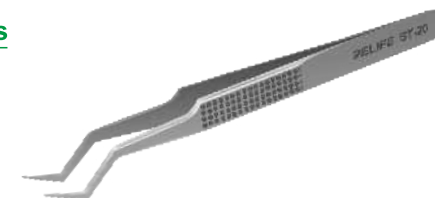

ST-13 Precision Flat Tip Tweezers

RT-11A Jumping Wire Special Tweezers

- Hand polished cutting edge;
- Fly wire can be clamped;
- Capable of clamping capacitors, chips;
- Can clip very fine silver wire continuously;
- Rust and corrosion resistant.

ST-20 Chip Placement Tin Positioning Tweezers

RT-11D/15D Ultra Lightweight Precision Tweezers

RT-11B/RT-15B Titanium Tweezers

RT-11C/RT-15C Titanium Tweezers

RT-14A Sharp Tweezers

RT-14SA Curved Tweezers

RT-14LA Chip-specific Tweezers

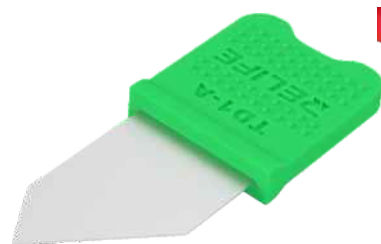

RL-087 Multifunctional Screen Disassembly Tool Set

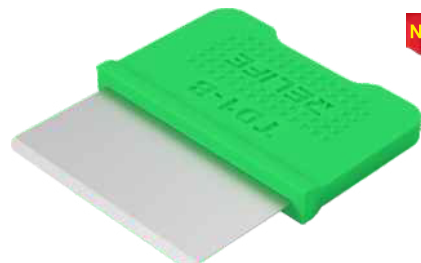

- Multifunctional maintenance design;
- Variety of styles, adapt to the dismantling needs of various models;
- Suitable for screen separation, integrated layered design avoids scratching the phone screen when embedded in the screen;
- It is suitable for disassembling mobile phone screen/curved screen edge/middle frame/back cover/bracket, etc., to meet the screen repair of various models at different angles;
- Increased and thickened glue design, more comfortable and labor-saving grip;
- The thickness of 0.1mm is moderately flexible and strong, suitable for disassembling various mobile phone screens/frames/glass back covers, etc.

RL-089 Non-magnetic Tin Scraper Set

- Multi-angle use design;
- Suitable for scraping tin on motherboard CPU straight hole/IC hole/CPU oblique hole, etc., scraping tin evenly and smoothly;
- Non-absorbing magnetic tin planting station, easy and even scraping tin, convenient and quick;
- Oblique use: According to the usage habits detected by the user experience, create a tin scraper for IC holes and CPU holes-RL-089A;
- Flat mouth use: according to the usage habits detected by the user experience, create a tin scraper for the motherboard and the CPU hole flat mouth - RL-089B;
- Using non-magnetic material, it is easy to deal with maintenance places such as various fine parts.

TD1-B Multifunctional Disassembly Tool

RL-101B 8-IN-1 Knife Set

RL-101E Knife Set

RL-101D Ceramic Degumming Blade

RL-101J Plastic Knife Handle Set

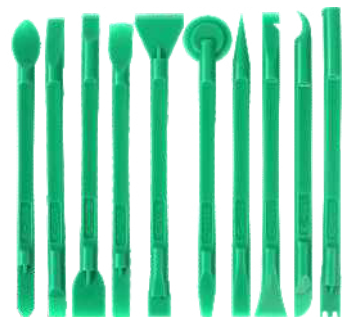

RL-049 CPU Removal Tools

RL-049A Multi-function Disassemble Set

RL-049B Glue Removal Stick Set

RL-049C Multifunctional Disassembly Tool Set

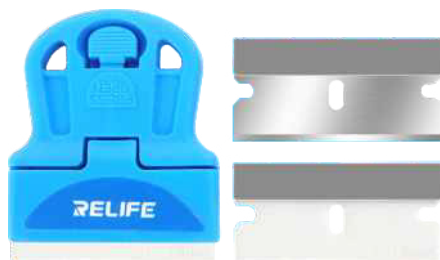

RL-065 3 In1 Opening Tools

RL-073 Shovel Plastic Multi-purpose Knife

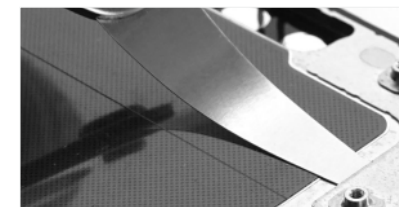

RL-060B Carbon Fiber Non-magnetic Disassembly Crowbar

RL-023A Ceramic Glue Remover

RL-023B Multipurpose Magnetic Squeegee

RL-060A Screen Disassembly Tools Set

- Suitable for disassembly work of different models, more convenient to disassemble the Edgescreen mobile phone;
- Suitable for disassembling frame for models above IP X series;
- Injury-free polarized light;
- The arc right-angle hook knife design is designed according to the arc surface angle of the current curved screen. The new "pigeon" knife head is easier to disassemble, making the operation more precise, not hurting the polarizer, and fast and convenient;
- Soft crystal epoxy non-slip handle, and at the same time enhance the user's better experience.

MICROSCOPE SPECIAL MAINTENANCE PAD

Microscope B1 Base Dedicated

RL-004M Microscope B1 Base Special Maintenance Pad

- Suitable for all B1 Microscope base;
- No need to disassemble the Microscope, easy to use;
- Small tools and parts storage design, say goodbye to the messy work table, let the work more organized;
- High temperature resistant 500 °C, environmentally friendly silicone, soft and comfortable, anti-static;
- The back is covered with round holes for a strong anti-slip effect

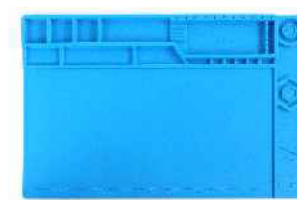

RL-004P Microscope B1 Base Special Maintenance Pad

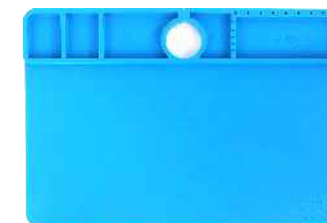

RL-004D Silicone Pad For Films

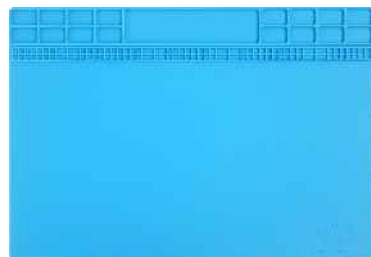

RL-004DM Film Professional Anti-slip Pad

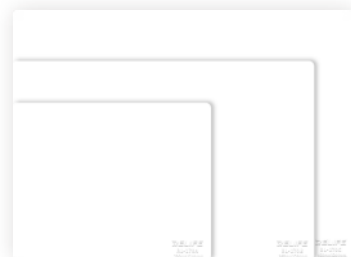

RL-160A High Temperature Repair Mat

RL-004I Special Maintenance Pad For Microscope B3

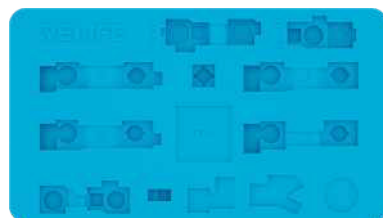

RL-004A High Temperature Heat Insulation Pad

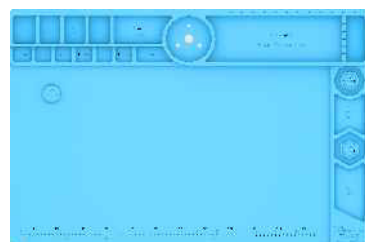

RL-170A/B/C High Temperature Heat Insulation Pad

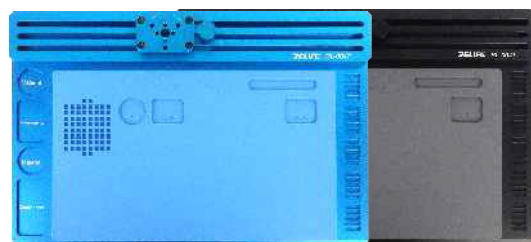

RL-004FA High Temperature Heat Insulation Pad

RL-004FB Dot Matrix Multifunctional Repair Pad

RL-160B Multifunctional Microscope Base

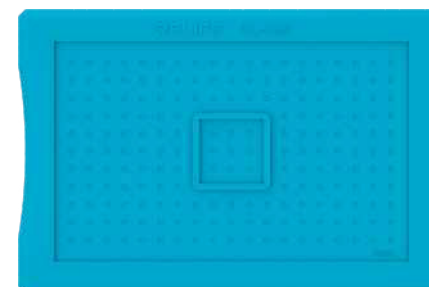

RL-004T Microscope Aluminum Alloy Track Movable Base

RL-004NA Multifunctional Microscope Base

- Suitable for single-hole, three-hole, four-hole column fixing and installation of various types of microscopes on the market;
- Component multi-function placement fixed slot design, suitable for face/dot matrix/CPU/fingerprint/infrared/front camera maintenance;
- Multifunctional adjustment pressure reducing tank;
- Multifunctional storage.

RL-088 Tin-planted Universal Magnetic Fixture

- Say goodbye to paper towel planting tin, which can be used for chip positioning and adhesive removal, and strong magnetic adsorption for tin planting;
- Multifunctional double-sided double-use;
- It is suitable for repairing motherboards of different shapes, general tin planting of various BGA chips, etc.;
- Various types of tin-planting stencils are commonly used, which can effectively avoid the phenomenon of tinning on the bottom of the stencil due to heating and swelling;
- Tin planting automatically balances the stencil and decompresses it, effectively protecting the chip and making it safer.

RL-004U Universal Movable Base

RL-061 Curved Screen Laminated Rubber Mold

RL-059F

RL-059E

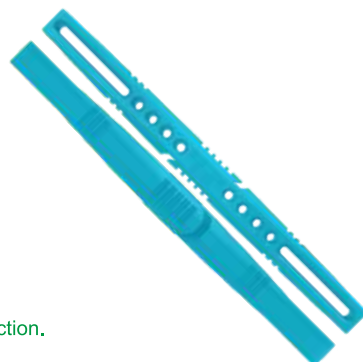

RL-059D

RL-059D/E/F Screen Separation Special Cutting Wire

RL-059 Plus 5 In 1 Cutting Wire Set

RL-085 Cutting Wire Stick

- Suitable for cutting wire fixing, can be pulled horizontally, vertically, and wound around wires, etc.;
- The cutting is labor-saving and easy, the operation is simple, the hand will no longer be scratched by the steel wire during the process, the use is more convenient and comfortable, and your work efficiency is improved;
- Lightweight design, ergonomic design, non-slip design, comfortable grip;
- Easy to wrap the silk thread, saving labor in the middle section.

RL-559C 3-in-1 Soldering Iron Tip Cleaner

- High temperature resistant silicone material;
- Encrypted cleaning steel brush, 360° cleaning without dead corners;
- Copper wire cleaning ball, efficient all-round cleaning;
- 0.1mm cleaning brush, does not damage the soldering iron tip, removes the oxide layer, and improves the service life of the soldering iron tip.

RL-059A/B/C Special High Hardness Cutting Wire

- Complete specifications/0.03/0.05/0.08mm;
- Carbon steel alloy material, wear resistance strength level is 3000-4000Mpa;
- No damage to the screen, easy and labor-saving cutting;
- Dedicated separation line for mobile phone LCD screen.

RL-072 Syringe Booster

RL-062 Manual Propelling Glue Gun

RL-062D Manual Labor-saving Glue Gun

RL-062A 10CC Manual Glue Gun

RL-062B 30-60CC Manual Glue Gun

RL-062C 3-5CC Needle booster

RL-102A Mini Insulated Ceramic Scissors

RL-102 Insulated Ceramic Scissors

RL-008A LCD Screen Fixing Clip

RL-079A Silicone Strong Suction Cup

RL-079 Suction Cup With Ring

RL-076 Screwdriver Magnetizer

RL-074 Glue Remove Artifact

RL-074A Double Slot Glue Artifact

RL-090 Curved Screen Limiter

RL-440/441/442 Solder Wire

- Select high-quality raw materials, tin color is bright, and solder joints are full;
- Full name net weight, no false;
- Including soldering rosin for better soldering effect;
- Medium temperature melting point, widely used for maintenance work such as mobile phone repair.

RL-445 0.3/0.4/0.5/0.6mm Solder Wire

NEW

RL-444 Battery Nickel Solder Wire

NEW

RL-045C Microfiber Double-layer Polishing Cloth

RL-045 Cleanroom Wipers

RELIFE OCA Glue

RL-063 Carbon Fiber Anti-static Gloves

RL-530 Environmental Protection Cleaner

- Deep cleaning;
- Green environmental protection/Fast evaporation;
- Large-diameter nozzle, covering a wider area, for stubborn stains;
- Suitable for cleaning oil stains on mobile phones, glasses, camera lenses, large screens, etc.

RL-1000E Water For Cleaning PCB Board

- Dedicated electronic commodity platform supply;
- Strong cleaning power and fast volatilization;
- Green and environmental protection, good flame retardant performance, can extinguish fire;
- Widely used in industry and communication electronic equipment.

RL-530 Environmental Protection Cleaner Set

RELIFE Soldering Wick

RL-1515/2015/2515/3015/3515/2030

- Imported pure copper material + special chemical formula, efficient tin removal
- Unique weaving process, copper-absorbing effect and just use a little can remove more solder

RL-20A Soldering Wire

RELIFE Powerful Soldering Wick

RL-1520/2020/2520/3020/3520

RELIFE Powerful Soldering wick, Unique appearance design, high quality imported materials, geometric precision weaving, to solve all your troubles.

F-21 New Emulsified Advanced Solder Flux Set

- Smoke and no choking smell;
- High-definition transparent, bright solder joints;
- New emulsification;
- Suitable for BGA ball, rework, component drag tin, repair soldering, etc.

F-20 Advanced Hydrogenated Flux

- No residue/Strong adhesion/Strong stability;
- Imported raw materials/Environmental formula;
- Unique and innovative design;
- Hydrogenated and transparent, effectively reduce welding defects and voids;
- Applicable to BGA sandal ball, rework, component drag tin, repair welding, etc.

F-22 Metal Special Flux

SP-X IP X Solder Paste

SP-50 BGA IC Solder Paste

RL-404 138°C Low Temperature Solder Paste

EXQUISITE, ENOUGH WEIGHT

RL-400/RL-401/RL-402/RL-403 183°C Solder Paste

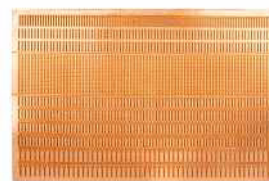

- Solder paste with high quality
- Solder wicking is strong
- Less residual
- No clean

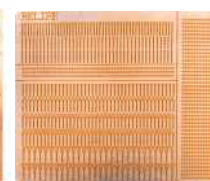

RL-406 227°C Middle Layer Lead-free High Temperature Tin Paste

RL-405 Solder Paste

RL-007G

RL-007GA

RL-007G/A No Looping Repair Spot Welding Piece

- Suitable for mobile phone pads of different sizes;
- Tear off and ready to use;
- A total of ≥1400 solder points of different shapes and specifications;
- Seamless repair;
- Replace the traditional jumping wire;
- No trace repair, fast patching.

RL-403S/404S/406S Repair Syringe Solder Paste

- Multiple melting points optional;
- Free 3 needles of different specifications + push rod;
- Suitable for SMT patch, BGA soldering, LED patch, etc.;
- Syringe design, Syringe design;
- Bright and plump solder joints;
- RELIFE's solder paste has moderate humidity, the solder paste is not easy to agglomerate, it is easy to be tinned, and there is no false soldering.

RL-070 High Purity Rosin

RL-035A PP Structural Adhesive

RL-559-IM Halogen-free Flux Paste

RL-428-OR Flux Paste

RL-223-OR Flux Paste

RL-035B Mobile Phone Screen Caulking Glue

RL-035C Mobile Phone Frame Caulking Glue

RL-UV424-OR Precision Electronic Repair-flux Paste

RL-UV425-OR Precision Electronic Repair-flux Paste

RL-420S-UV/421S-OR/422S-IM BGA Flux Paste

- Syringe type flux;
- No cleaning/easy to solder/high activity/free 2 needles + push rod;
- No resistance / no conductivity / no repair / no cleaning;
- The thinness is good, and the application is more even;
- Bright solder joints;
- Suitable for sensor, wire, SMT repair, circuit welding, tablet phone computer repair, home appliance repair, etc.

RL-420-UV BGA Flux Paste

RL-421-OR BGA Flux Paste

RL-422-IM Halogen-free Flux Paste

RL-426A

RL-426B

RL-426C

RL-426A/B/C High Purity Soldering Paste Flux

Blue

Pink

Black

RL-407 Thermal Silicone (Black/Blue/Pink)

- Applicable to IP/Android mobile phones, laptop, desktop computer CPU/graphics card processors, various modules with high thermal conductivity requirements, high-speed large storage drives, network communication equipment, cooling devices, electronic components, office software equipment, household appliances Waiting for the maintenance and use of various devices.;
- Thermal conductivity 6.0W/MK, heat and humidity resistance, environmental aging resistance, easily cope with the heat brought by high power consumption CPU/GPU;
- Has good insulation, non-conductive, and does not corrode various heat dissipation components;
- Various colors are available.

NEW

902G/green

902B/black

902Y/yellow

902R/red

902BL/blue

902/transparency

RL-UVH902 3S Quick-drying Solder Resist Oil

- 3S rapid curing without dead angle, no time-consuming repair of welding plate, no repair;
- It is specially used to repair the peeling or partial damage of the solder mask layer of the PCB circuit board of the computer and mobile phone, and the corresponding color can be selected according to the demand;
- The pads of the jumping wire coil do not come off, the chip is fixed, it is resistant to high temperature and does not soften, and it is durable;
- Insulate and protect the electronic components after welding, repair the peeling or partial damage of the solder mask layer of the PCB circuit board, fix the enamelled wire, and protect the components. It is suitable for professional fixing of tail plugs, screw posts, Jumping wire, pads and other parts;
- Solder mask insulation, a variety of colors available;
- It is suitable for repairing the peeling or partial damage of the solder mask layer of the PCB circuit board of the computer and mobile phone. The corresponding color can be selected according to the demand. The 3S rapid curing without dead angle does not take time to repair the solder plate and does not need to be repaired.

RL-UVH900/B/R/BL/Y/W Environmentally UV Curing Solder-resist Oil

- Dedicated to repairing computer and mobile phone PCB circuits stripping or partial damage of solder masks on boards and lines, and jump wire fixed insulation and protecting components.;
- Environmentally friendly consumables, good insulation, good film-forming toughness.

RL-UVH 901G/B/R/BL/Y/W

RL-423-UV Drip Type Lead-free Disposable Flux

RL-429 BGA Flux Paste

RL-461 Tip Refresher

RL-039 BGA/IC High-effect Adhesive Remove Liquid

TP-2500/TP-2500F High Strength UV Glue

CP-0001 Halogen-free Flux Paste

CP-0002 Halogen-free Flux Paste

B7000/T7000 Multipurpose Adhesive

RELIFE 401 Super Glue

It is an environmentally glue. Good viscosity, fast curing, durable, low odor, suitable for machinery, watches, metal, furniture, etc.

RELIFE 460 Super Glue

Better for fingerprint repair

RL-081 UV Traceless Adhesive

RL-528 Polarizer Remover

RL-538 LCD OCA Remover

RL-548 Solder Paste Thinner

RL-250 Water For Cleaning PCB Board/250ML

- Suitable for PCB board to be cleaned after soldering;
- Fast evaporation speed;
- Non-destructive residue;
- Lead-free environmental protection.

RL-1000 Water For Cleaning PCB Board/1L

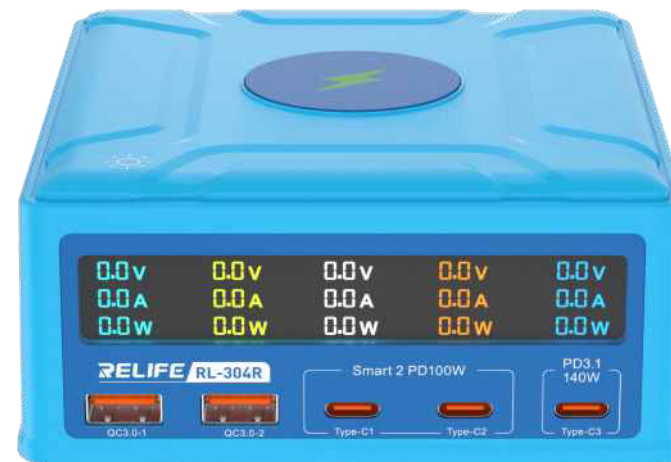

RL-5000 Water For Cleaning PCB Board/5L

RL-518A Powerful Frame Removal Glue

RL-058 3 In 1 Chip Welding Special Set

RL-304R Multi-port GaN Charger

- Applicable to MAC/IPAD/iP/HW/SAM/OP/VI/MI/MZ and other mainstream brand mobile phones/tablets/laptops;
- Using the new semiconductor gallium nitride technology, the laptop charging technology is applied to the power strip, balancing fast charging and safety, with greater power and smaller size;
- 260W high power flash charging;
- 6 in 1 minimalist desk charger;
- Comply with Qi wireless charging standard, 15W peak output, automatically adapt to match 10W/7.5W/5W;
- Comply with Qi wireless charging standard, 15W peak output, automatically adapt to match 10W/7.5W/5W.

RL-304P Smart Digital Display 6-port Charger

RL-304M Intelligent High Power 30 Port Charging Master

RL-304S Multifunctional Ddigital Display 8 Port Charger

- 15W Wireless Charging Stand;
- Dual PD Fast Charge;
- Dual QC3.0;
- 45W Fast Charge Port Rechargeable Laptop;
- 110W High Power;
- Suitable for charging digital devices such as IP/HW/VI/OP/MI/MZ/SAM and other brands of mobile phones and tablets.

RL-304N Smart Digital Display 6 Port Charger

- 6-in-1 Minimalist Desk Charger;
- Single-port 45W output, fully charged the laptop easily;
- PD+QC 3.0 fast charging technology;
- Wide range of voltage for global use;
- Multiple intelligent protection 3C certification;
- Powerful high-power 45W (MAX) output, compatible with the power supply requirements of most PD interface laptops on the market.

RL-309A Digital 8-port Charger

RL-309AW Digital 8-port Charger-Wireless charger

RL-316D Universal Power Socket

- Smart switch, accurate timing;
- Fully compatible, fast charge protocol;
- Core upgrade, 3C certification;
- 750°C high temperature resistant flame retardant material;
- New graphite gray appearance design, smooth lines, slightly curved corners;
- Multiple protection system.

RL-502 Desktop Smart Heater

- 3 seconds fast heat;
- Intelligent temperature control;
- Multiple security protections;
- Heating anytime, anywhere.

RL-503 Adjustable mobile holder

- 35° Free adjustment;
- Suitable for mobile phones and tablets;
- Small footprint;
- Telescopic adjustment.
